way we think about ourselves today *Discovering the Culture of Childhood* Emily Plank, 2016-07-11 View the culture of childhood through a whole new lens Identify age based bias and expand your outlook on and understanding of early childhood as a culture Examine various elements of childhood culture language belief economics arts and social structure to understand children s dispositions of questioning engagement and cooperation Emily Plank specializes in play based education diversity and culture in early childhood education and outdoor learning In 2011 the Iowa Association for the Education of Young Children identified Emily as one of seven emerging leaders She earned her bachelor s degree from Pepperdine University She and her family currently reside in Lausanne Switzerland *Understanding the Life Course* Lorraine Green, 2016-12-20 Understanding the Life Course provides a uniquely comprehensive guide to the entire life course from an interdisciplinary perspective Combining important insights from sociology and psychology the book presents the concepts theoretical underpinnings in an accessible style supported by real life examples From birth and becoming a parent to death and grieving for the loss of others Lorraine Green explores all stages of the life course through key research studies and theories in conjunction with issues of social inequality and critical examination of lay viewpoints She highlights the many ways the life course can be interpreted including themes of linearity and multidirectionality continuity and discontinuity and the interplay between nature and nurture The second edition updates key data and includes additional material on topics such as new technologies changing markers of transitions to adulthood active ageing resilience and neuropsychology This comprehensive approach will continue to be essential reading for students on vocational programmes such as social work and nursing and will provide thought provoking insight into the wider contexts of the life course for students of psychology and sociology *Art-Centered Learning Across the Curriculum* Julia Marshall, David M. Donahue, 2015-04-28 This handbook provides teachers with a framework for implementing inquiry based substantive art integration across the curriculum along with the background knowledge and models needed to do this Drawing on ideas from Harvard Project Zero the authors make a clear and compelling argument for how contemporary art supports student learning The text features subject specific chapters co written by teaching scholars from that discipline Each chapter includes examples of contemporary art with explanations of how these works explore the fundamental concepts of the academic discipline The book concludes with a chapter on an integrated inquiry based curriculum inspired by contemporary art including guidelines for developing art projects teachers can adapt to their students interests and needs This resource is appropriate for art teachers as well as subject area teachers who are not familiar with using contemporary art in the classroom I am so excited about this book The visuals alone are enough to clue teachers in on ways that Contemporary Art can blow their curriculums open to become engaging relevant vehicles for their students to ride across the 21st century From the first scan readers cannot help but see the power of Contemporary Art in transforming classrooms and learning From the Foreword by Lois Hetland professor and chair of art education at Massachusetts College of Art and Design and co author of Studio Thinking 2 Art Centered Learning

Across the Curriculum well surpasses its goal to demystify contemporary art for K 12 teachers In this important text the authors present a direct challenge to educators and public education reformers of all stripes to embrace the arts and design practices across disciplines as a potent means for building beautiful minds not merely as a tool for beautifying dingy school corridors This new book serves as a primer for fashioning the kinds of integrated curriculum frameworks required for success in today s global knowledge economy James Haywood Rolling Jr chair of art education and a dual professor in art education and teaching and leadership Syracuse University *Exiting the Factory (Volume 1)* Alexander Gallas,2024-07-01 In this important book Gallas asks what strikes in non industrial sectors mean for class formation a critical question which has largely been unaddressed by the current literature on global labour unrest A mapping of strikes around the world and case studies from Germany Britain and Spain cast new light on class relations struggles around waged and unwaged work and labour movements in contemporary capitalism to bring class theory back to labour studies This is a valuable resource for academics and students of employment relations sociology and politics **Global Sociology, Third Edition** Robin Cohen,Paul Kennedy,2013-03 The third edition explores global issues at the heart of sociological discussion with an updated focus on globalism social media migration and more The first pioneering editions of Global Sociology put global issues at the heart of sociological discussion Much has changed in the world since then recessions revolutions social media and new migration networks have developed as causes and symptoms of an increasingly global society This new edition is fully updated to explore just how these global issues can help us to understand sociology in our world today Making clear connections between everyday experiences and global processes at each step the third edition carefully guides readers through essential and cutting edge topics in the discipline from family and feminism to environment and economy Features such as biography boxes on key thinkers in the field a thorough glossary and review questions introduce and reinforce the book s core ideas With clear writing and infectious enthusiasm for its topic Global Sociology remains the authority on global issues in sociology for students at a variety of skill levels **Understanding the Times** Jeff Myers,David A. Noebel,2015-09-01 Your view of God determines your view of the world You hold in your hands a landmark guide to understanding the ideas and forces shaping our times Understanding the Times offers a fascinating comprehensive look at the how the tenets of the Christian worldview compares with the five major competing worldviews of our day Islam Secular Humanism Marxism New Age and Postmodernism Understanding the Times is a systematic way to understand the ideas that rule our world While the material is expansive the engaging easy to understand writing style invites you to discover the truths of God and our world This classic should be on the shelf of every Christian home on the desk of every pastor and in the hands of every Christian student headed off to college Crime, Violence and Modernity Gordon Hughes,2022-04-26 This book makes an original contribution to reconnecting criminological inquiry to the core concerns of the classical sociological imagination and to the intellectual resources of comparative and historical sociology Throughout the book Hughes challenges

the long standing division of labour in criminology and sociology more generally between theory method and research Accordingly the author s concerns here are as much about the craft and working methods of being a sociological criminologist as it is about theory and concepts In the first half of the book the key conceptual and methodological premises of the classical sociological tradition are outlined and the latter s potential for revitalizing contemporary criminological research theorizing are assessed These chapters also address the debate regarding the relationship between crime and violence and that of modernity and the Western civilizing process In the second half of the book three areas of current criminological inquiry are explored through the lens of the long term process oriented and radically relational perspective of contemporary Weberian and Eliasian scholarship Among the areas of comparative investigation explored here are street crime gangs and urban violence genocide and murderous ethnic cleansing warfare colonialism and human rights Written in a clear and direct style this book will appeal to students and scholars of criminology sociology and all those interested in what a sociological lens brings to the practices of contemporary criminology

Utopia as Method R. Levitas,2013-07-25 Utopia should be understood as a method rather than a goal This book rehabilitates utopia as a repressed dimension of the sociological and in the process produces the Imaginary Reconstitution of Society a provisional reflexive and dialogic method for exploring alternative possible futures

Dynamics of Change Mr. Rohit Manglik,2023-04-23 Studies forces driving societal transformation including globalization technology and policy shifts

The Body Chris Shilling,2016-01-28 The human body is thought of conventionally as a biological entity with its longevity morbidity size and even appearance determined by genetic factors immune to the influence of society or culture Since the mid 1980s however there has been a rising awareness of how our bodies and our perception of them are influenced by the social cultural and material contexts in which humans live Drawing on studies of sex and gender education governance the economy and religion Chris Shilling demonstrates how our physical being allows us to affect the material and virtual world around us yet also enables governments to shape and direct our thoughts and actions Revealing how social relationships cultural images and technological and medical advances shape our perceptions and awareness he exposes the limitations of traditional Western traditions of thought that elevate the mind over the body as that which defines us as human Dealing with issues ranging from cosmetic and transplant surgery the performance of gendered identities the commodification of bodies and body parts and the violent consequences of competing conceptions of the body as sacred Shilling provides a compelling account of why body matters present contemporary societies with a series of urgent and inescapable challenges
