her 10 women subjects explains their education career trajectory and accomplishments Their experiences reveal various mechanisms through which the patriarchy operates to subordinate successful women such as communication patterns among men that minimize women s contributions withholding of information denial of status to women intimidation tactics and the double bind that women find themselves in when they seek fair treatment After analyzing the women s termination in detail Reeves discusses how each woman s personality played a role in her termination Reeves ends by drawing conclusions on what the present and future seem to hold for women s progress in organizations and particularly in publicly held corporations
