Making Sense of Word Problems Eric de Corte,Brian Greer,Lieven Verschaffel,2000-01-01 Word problems have been a staple of

mathematics instruction for centuries yet the rationale for their use has remained largely unexamined A range of findings have shown how students consistently answer them in ways that fail to take account of the reality of the situations described This monograph reports on studies carried out to investigate this suspension of sense making in answering word problems In Part One a wide range of examples documenting the strength of the phenomenon is reviewed Initial surprise at the findings was replaced by a conviction that the explanation lies in the culture of the mathematics classroom specifically the rules implicitly governing the nature and interpretation of the word problem genre This theoretical shift is reflected in Part Two A detailed analysis of the way in which word problems are currently taught in typical mathematical classrooms is followed by reviews of design experiments illustrating how by immersing students in a fundamentally changed learning environment they can acquire what the authors consider to be more appropriate conceptions about and strategies for doing word problems Part Three turns to a wider discussion of theoretical issues a further analysis of the features of the educational system considered responsible for outcomes detrimental to many students understanding and conception of mathematics and suggestions for rethinking the role of word problems within the curriculum

Planet Claire, Suite for Cello and Sad-Eyed Lovers Jeff Porter, 2021-01-05 The second installment in Ann Hood's Gracie Belle imprint challenges the traditional solemnity that characterizes nonfiction books of grief loss and sorrow Few readers will fail to be gripped by this tragically common story about death and what comes after for those left behind A haunting and thought provoking consideration of death and how utterly it rips apart our lives Kirkus Reviews Starred Review Planet Claire is the story of the untimely death of the author's wife and his candid account of the following year of madness and grief As his life unravels Porter analyzes his sadness with growing interest He talks to Claire as if to evoke a presence to mark a space for memory He reports on his daily walks and shares observations of life's sadness while reminiscing about various moments in their life together Like Orpheus the author searches for a lost love and what he finds is not the dog of doom but flashes of an intimate symmetry that brighten the darkest places of sorrow The second title from Ann Hood's Gracie Belle imprint Planet Claire takes readers on a journey of sorrow that recalls memorable works by C S Lewis A Grief Observed Joan Didion The Year of Magical Thinking and Julian Barnes Levels of Life Porter's memoir however is also playful quirky and self ironic in a way that challenges the genre's traditional solemnity Like the novel Grief Is the Thing with Feathers by Max Porter this is an unpredictably funny account of heartbreak as if to say there's something about the magnitude of loss that troubles even earnestness
