 Dystopian Science Fiction Alternative History He can talk it said my playmates who attended the public schools where all
 teaching of the language of the outcast nation was prohibited They invariably elected me to be the Germans and locked me
 up in the old garage while they rained a stock of sun dried clay bombs upon the roof and then came with a rush to batter
 down the walls of Berlin by breaking in the door while I muttering strange guttural oaths would be led forth to be
 exterminated On rainy days I would sometimes take my favoured playmates into my uncle s library where five great maps
 hung in ordered sequence on the panelled wall The fourth map was the most fascinating and terrible Again the black of
 autocracy appeared obliterating the red of the Brotherhood of Man spreading across half of Eurasia and thrusting a broad
 black shadow to the Yellow Sea and a lesser one to the Persian Gulf and lines of dotted white retreated in concentric waves
 till **Myths and Tales from the White Mountain Apache** Pliny Earle Goddard, These myths and tales are the free
 translations of texts recorded in the dialect of the White Mountain Apache The texts themselves with word for word
 translations follow as Part IV of the volume They were recorded with one exception during the winter of 1910 as a part of the
 studies made in the Southwest under the yearly grant of Mr Archer M Huntington The creation myth secured from Noze
 differs in important incidents from the versions given above from the San Carlos as well as from versions secured from other
 White Mountain Apache It should not be assumed that these differences are tribal it is more probable that they are individual
 since forms from the San Carlos and Navajo are closely similar to each other The greater number of the remaining narratives
 were secured from the father of Frank Crockett the interpreter employed Several of these are ceremonial and religious in
 their character and probably would not have been given except for the son s influence Two of these were later secured from
 San Carlos informants in more extended form but highly corroborative in their general agreement The main purpose in

recording these narratives was to secure sufficient and varied connected texts in the dialect of the White Mountain Apache. As a collection of mythology and folklore it is probably far from complete. It is assumed however to be fairly representative.
