and personal and social transformation H D has in her own words always been uncanonically seated resistant to rigid classification the texture of her work celebrates internal existential resonances that evidence the emergence of personality The author capitalizes on this facet of H D s work and uncanonically seats her in conversation with the neglected literary theorist Louise Rosenblatt 1904-2005 whose transactional contribution uniquely fuses critical theory politics philosophy and educational vision This book synthesizes the work of H D and Rosenblatt to create an emergent personalist theory of literary experience in the quest for wisdom crystallizing links between philosophical anthropology aesthetics pedagogy and the politics of human relations Benefiting from access to unpublished material housed at Columbia New York and Yale universities Vytiniorgu combines analysis and theorizing to offer a significant pedagogically inflected intervention in literary studies arguing that university English studies must incorporate critical and pedagogical vantages which open a window on wisdom as well as knowledge
