Teaching Across The Early Years 3 7:

Teaching Across the Early Years 3-7 Hilary Cooper, Chris Sixsmith, 2004-11-23 This practical and accessible book explores ways of developing continuity and coherence in children's learning from three to seven years old. It is based around three case studies in which tutors on Initial Teacher Training courses worked with early years practitioners in three different pre-school settings each linked to a primary school. The book describes how they successfully managed to plan and teach integrated themes across the age range in the context of the requirements of the Foundation Stage and the National Curriculum. Each case study has a different focus: science, design and technology, the arts, including an ICT strand, the humanities, including a physical education strand. English and mathematics dimensions run through each theme. The book is alive with discussion of children's art, language, drama and music, captured as field notes, writing, drawing and as video tape. Each chapter concludes with suggestions of ways in which readers can develop the ideas in their own contexts. This book will be invaluable reading for students on Early Years courses, Early Years practitioners and tutors and mentors in early childhood education.

Developing Professional Practice 0-7 Sonia Blandford, Catherine Knowles, 2016-05-20 *Developing Professional Practice 0-7* provides a thoroughly comprehensive and cutting edge guide to developing the understanding and practical skills necessary for working within early years education. The new edition is fully updated for the revised Early Years Foundation Stage Statutory Framework. The updated edition covers all core topics associated with developing effective professional practice, including leadership and management, personalised learning and continuing professional development. There is also a strong focus on parent/carer engagement, setting accountability for the lowest attaining groups, the parent/carer and child voice in education, transition, SEND reform, early intervention and developing leadership at all levels, including as a business model. Readers can explore in depth issues and take ownership of them by applying theory to real practice in schools and early years settings. Chapter contents are directly linked to the Early Years Teacher Standards, providing a clear understanding of how the content relates to competencies and allowing readers to reflect critically on best practice. Discussion points and case studies further connect theory to practice and offer a genuinely accessible and engaging introduction to supporting the education of babies, toddlers and young children. This vibrant, dynamic and interactive approach uses examples of real practice along with a range of additional features tailored to support the reader in developing their knowledge, skills and understanding. *Developing Professional Practice 0-7* is essential reading for anyone training to work in the early years and an invaluable resource for all those already in the early stages of their careers.
