Teaching Faulkner Approaches And Methods:

Teaching Faulkner Stephen Hahn, Robert W. Hamblin, 2001 For decades now literary critics have universally praised Faulkner as one of the greatest writers of the modern era yet students assigned to read his novels in university college and high school classes continue to struggle to make sense of his convoluted plots prolix style and complex characterizations The broadest treatment to date of a topic of increasing concern this book is designed to provide fresh strategies and practical suggestions for the classroom study of several of Faulkner's finest novels and stories including *The Sound and the Fury* *Absalom Absalom* *Light in August* *The Unvanquished* and *Go Down Moses* The contributors all noted Faulkner scholars who regularly teach Faulkner works in their courses employ a variety of critical theories and approaches In each chapter theory is subordinated to tested classroom methods that both motivate and assist students in reading the texts and in understanding why Faulkner remains relevant for contemporary readers The teaching strategies described in this book draw upon such diverse matters as cultural and social analysis historical context reading and rhetorical theory film and stage techniques comparative studies and race class and gender issues Teaching Modernist Anglophone Literature, 2018-08-13 *Teaching Modernist Anglophone Literature* features fresh classroom approaches to teaching modernism with an emphasis on pedagogy grounded in educational theory and contemporary digital media tools It offers techniques for improving students close reading critical thinking writing and engagement with issues of gender race class and social justice Discussions are raised of subjectivity perception the nature of language and the function of art Innovative project ideas assignments and examples of student work are offered in a special annex This volume fills a gap in higher education pedagogy uniquely suited to the experimental nature of modernism Madden and McKenzie's inspiring volume can steer the teaching of modernist literature in creative new directions that benefit both teachers and students Contributors are Susan Hays Bussey William A Johnsen Benjamin Johnson Mary C Madden Laci Mattison Precious McKenzie Susan Rowland and Kelsey Squire **Faulkner's Ethics** Michael Wainwright, 2021-05-28 This book offers the first comprehensive investigation of ethics in the canon of William Faulkner As the fundamental framework for its analysis of Faulkner's fiction this study draws on *The Methods of Ethics* the magnum opus of the utilitarian philosopher Henry Sidgwick While Faulkner's *Ethics* does not claim that Faulkner read Sidgwick's work this book traces Faulkner's moral sensitivity It argues that Faulkner's language is a moral medium that captures the ways in which people negotiate the ethical demands that life places on them Tracing the contours of this evolving medium across six of the author's major novels it explores the basic precepts set out in *The Methods of Ethics* with the application of more recent contributions to moral philosophy especially those of Jacques Derrida and Derek Parfit **Yoknapatawpha Blues** Tim A. Ryan, 2015-04-13 TIM A RYAN is associate professor of English at Northern Illinois University and the author of *Calls and Responses The American Novel of Slavery Since Gone with the Wind* *Toni Morrison* Lucille P. Fultz, 2012-11-22 *Toni Morrison* features a collection of ten new essays by noted Morrison scholars

including recipients of the Toni Morrison Society Book Award Focusing upon Morrison's most recently published novels *Paradise* *Love* *A Mercy* the contributors to this volume revisit issues that continue to engage Morrison and are part of the currency of contemporary American literary and cultural history These selections examine Morrison's ongoing romance with African Americans as they continue to battle the demons of race gender class and poverty to name a few Together these essays offer comprehensive and nuanced discussions of Morrison's latest novels and provide new directions for Morrison scholarship in the 21st century This volume provides students of literature cultural studies and history with an overview of Morrison's examination of African American progress and leadership at key moments in American history and culture from the Colonial Period to the present Through their thematic interconnectedness the essays reveal Morrison at her most brilliant in her ability to reach into the past to comment on contemporary issues **Robert Frost in Context** Mark

Richardson, 2014-04-14 Forty essays from influential scholars and poets offer a fresh multifaceted assessment of the life and works of Robert Frost **The Post-Utopian Imagination** M. Keith Booker, 2002-01-30 In America the long 1950s were marked by an intense skepticism toward utopian alternatives to the existing capitalist order This skepticism was closely related to the climate of the Cold War in which the demonization of socialism contributed to a dismissal of all alternatives to capitalism This book studies how American novels and films of the long 1950s reflect the loss of the utopian imagination and mirror the growing concern that capitalism brought routinization alienation and other dehumanizing consequences The volume relates the decline of the utopian vision to the rise of late capitalism with its expanding globalization and consumerism and to the beginnings of postmodernism In addition to well known literary novels such as Nabokov's *Lolita* Booker explores a large body of leftist fiction popular novels and the films of Alfred Hitchcock and Walt Disney The book argues that while the canonical novels of the period employ a utopian aesthetic that aesthetic tends to be very weak and is not reinforced by content The leftist novels on the other hand employ a realist aesthetic but are utopian in their exploration of alternatives to capitalism The study concludes that the utopian energies in cultural productions of the long 1950s are very weak and that these works tend to dismiss utopian thinking as naïve or even sinister The weak utopianism in these works tends to be reflected in characteristics associated with postmodernism **American Literary Scholarship** James Leslie

Woodress, 1965 **Approaches to Teaching Faulkner's The Sound and the Fury** Stephen Hahn, 1996-01-01 The works of William Faulkner have become part of the undergraduate canon in the decades since he received the Nobel Prize in 1950 While many of Faulkner's novels and stories are assigned to high school and college students the editors of this volume focus on *The Sound and the Fury* because the novel is representative of Faulkner's best writing and accessible to many levels of teaching and learning The novel also lends itself to exploration of many topics including biographical fiction the decline of the Old South and the rise of the New South the influence of American and European literary traditions and the treatment of subjectivity and language Publisher description **ATQ**, 2003
