Teaching Tudor And Stuart Women Writers:

Teaching Tudor and Stuart Women Writers Susanne Woods, Margaret P. Hannay, 2000 The increased attention to women's literature of the early modern period has reinvigorated literary study not by supplanting the traditional canon but by renewing our interest in it As the volume editors note Teaching Spenser's *The Faerie Queene* is a richer experience when one also teaches Wroth's *Urania* Teaching Tudor and Stuart Women Writers summarizes the latest scholarship on British women writers who lived from roughly 1500 to 1700 and suggests strategies for presenting their works in the classroom Thirty six essays discuss frequently anthologized pieces by such women as Margaret Cavendish Elizabeth I Mary Sidney and Mary Wroth as well as the writings of women who have come to the notice of scholars only recently The volume addresses women's roles in early modern society and women's limited access to education and opportunities for writing provides background for understanding literary religious historical and social texts gives biographies of certain writers lists texts suitable for presentation in the undergraduate classroom suggests models for lower level surveys as well as semester length graduate seminars and details the availability of primary sources

Early Modern Women's Writing and the Future of Literary History Lara

Dodds, Michelle M. Dowd, 2025-02-03 Early Modern Women's Writing and the Future of Literary History demonstrates that a full accounting of early modern women's literary and creative activities is necessary to the future of literary studies writ large Despite benefiting from a rich body of scholarship and diverse critical practices early modern women's writing is still treated as an optional or secondary component of Renaissance literary studies as a whole In this book Dodds and Dowd offer a state of the field assessment of the critical and theoretical debates that have resulted in this state of affairs in order to advance specific visions for the future Dodds and Dowd examine how perennial questions about authorship canon and literary value have historically influenced scholarship on early modern women's writing and its place within literary studies Early modern women's writing has been perceived as belated out of sync with dominant critical trends Dodds and Dowd show the belatedness of early modern women's writing to be a happy accident that positions women's writing as a resource for the renewal of literary history In both the classroom and in scholarship early modern women's writing shows the way forward for the field whether in the revitalization of formalist approaches to literature through an alliance with feminism or in the integration of newer critical methodologies such as premodern critical race studies This book demonstrates that a feminist literary history that places women's writing at its center is essential to the future of English Renaissance literary studies There is in other words no history of English Renaissance literature without women writers

Of all the new developments in literary theory feminism has proved to be the most widely influential leading to an expansion of the traditional English canon in all periods of study This book aims to make the work of Renaissance women writers in English better known to general and academic readers so as to strengthen the case for their future inclusion in the Renaissance literary canon This lively book surveys women writers in the sixteenth century and early seventeenth centuries Its selection is vast historically representative and original taking examples from twenty different relatively unknown authors in all genres of writing including poetry fiction religious works letters and journals translation and books on childcare It establishes new contexts for the debate about women as writers within the period and suggests potential intertextual connections with works by well known male authors of the same time Individual authors and works are given concise introductions with both modern and historical critical analysis setting them in a theoretical and historicised context All texts are made readily accessible through modern spelling and punctuation on the page annotation and headnotes The substantial up to date bibliography provides a source for further study and research *Feminist Formalism and Early Modern Women's Writing* Lara Dodds, Michelle M. A study of the representation of reading in early modern Englishwomen s writing this book exists at the intersection of textual criticism and

cultural history It looks at depictions of reading in women s printed devotional works maternal advice books poetry and fiction as well as manuscripts for evidence of ways in which women conceived of reading in sixteenth and early seventeenth century England Among the authors and texts considered are Katherine Parr Lamentation of a Sinner Anne Askew The Examinations of Anne Askew Dorothy Leigh The Mothers Blessing Elizabeth Grymston Miscelanea Meditations Memoratives Aemelia Lanyer Salve Deus Rex Judaeorum and Mary Wroth The First Part of the Countess of Montgomery s Urania Attentive to contiguities between representations of reading in print and reading practices found in manuscript culture this book also examines a commonplace book belonging to Anne Cornwallis Folger Folger MS V a 89 and a Passion poem presented by Elizabeth Middleton to Sarah Edmondes Bod MS Don e 17 Edith Snook here makes an original contribution to the ongoing scholarly project of historicizing reading by foregrounding female writers of the early modern period She explores how women s representations of reading negotiate the dynamic relationship between the public and private spheres and investigates how women might have been affected by changing ideas about literacy as well as how they sought to effect change in devotional and literary reading practices Finally because the activity of reading is a site of cultural conflict over gender social and educational status and the religious or national affiliation of readers Snook brings to light how these women when they write about reading are engaged in structuring the cultural politics of early modern England
