Rearticulating Writing Assessment for Teaching and Learning

Brian Huot, 2003-04-01 Brian Huot s aim for this book is both ambitious and provocative He wants to reorient composition studies view of writing assessment To accomplish this he not only has to inspire the field to perceive assessment generally not the most appreciated area of study as deeply significant to theory and pedagogy he also has to counter some common misconceptions about the history of assessment in writing In Re Articulating Writing Assessment Huot advocates a new understanding a more optimistic and productive one than we have seen in composition for a very long time Assessment as Huot points out defines what is valued by a teacher or a society What isn t valued isn t assessed it tends to disappear from the curriculum The dark side of this truth is what many teachers find troubling about large scale assessments as

standardized tests don't grant attention or merit to all they should. Instead, assessment has been used as an interested social mechanism for reinscribing current power relations and class systems. **Teaching and Evaluating Student Writing**, 1978
