Teaching Peace Toward Cultural Selflessness:

Teaching Peace Thomas J Lasley, 1994-06-30 Explains how parents and teachers can instill attitudes of selflessness and nonaggression in the younger generation *John A Collected Essays 2* John Scales Avery, 2016-02-06 This book contains a collection of essays and articles by John Scales Avery discussing the severe problems and challenges which the world faces during the 21st century Human civilization and the biosphere are threatened by catastrophic climate change Unless rapid steps are taken to replace fossil fuels by 100% renewable energy we risk passing a tipping point beyond which uncontrollable feedback loops could produce a 6th extinction event comparable to those observed in the geological record Another serious threat to human civilization and the biosphere is the danger of a catastrophic thermonuclear war Over a long period of time there is an ever increasing risk that such a war will occur by accident or miscalculation Thirdly there is threat of an extremely serious and widespread famine produced by the climate change rapidly growing populations and the end of the fossil fuel era We must urgently address all three challenges Peace Education, 3d ed. Ian M. Harris, Mary Lee Morrison, 2014-01-10 Now in its third edition Peace Education provides a comprehensive approach to educating for a just and sustainable future It begins with religious and historical trends that have molded our understanding of peace and then presents a variety of ways to practice peace education in schools and communities and explains how it can motivate students The teaching and practice of peace education provides a basis of valuable knowledge about resolving conflicts and transforming violence without the use of force Instructors considering this book for use in a course may request an examination copy here *Spiritual and Political Dimensions of Nonviolence and Peace* David Boersema, Katy Gray Brown, 2006 This book is a collection of philosophical papers that explores theoretical and practical aspects and implications of nonviolence as a means of establishing peace The papers range from spiritual and political dimensions of nonviolence to issues of justice and values and proposals for action and change **Huck Finn's "hidden" Lessons** Sharon Rush, 2006 Huck Finn's Hidden Lessons questions the educational suitability of *The Adventures of Huckleberry Finn* in the classroom The author argues that the book teaches misguided lessons about race relations Huck Finn's Hidden Lessons challenges the more typical understanding of Huck Finn and guides readers through an analysis that demonstrates how racism functions in the book and the classroom **Peace Education from the Grassroots** Ian Harris, 2013-09-01 Historians often ignore the day to day struggles of ordinary people to improve their lives They tend to focus on the accomplishments of illustrious leaders Peace Education from the Grassroots tells the stories of concerned citizens teachers and grassroots peace activists who have struggled to counteract high levels of violence by teaching about the sources for violence and strategies for peace The stories told here come from the grass roots meaning the educators are close to the forms of violence they are addressing This collection of essays tells how citizens at the grassroots level developed peace education initiatives in thirteen different nations Belgium Canada El Salvador Germany India Jamaica Japan Mexico the Philippines South Korea Spain Uganda and the
