Situating Sound And Rhythm:

Situating the Subject in Film Theory Veijo Hietala, 1990 *Situating the Subject in Film Theory*, 1990 *Situating Mallarmé* David P. Kinloch, Gordon Millan, 2000 Since his death just over a century ago Stéphane Mallarmé has become a major figure in world literature Over this period Mallarmé criticism has tended to concentrate on two aspects of his work Firstly on textual analysis in order to tackle the difficulty of his writing and secondly thanks to the interest shown in him by figures such as Barthes Derrida Kristeva and Lacan on his theoretical writings Indeed this particular part of his oeuvre has somewhat dominated Mallarmé studies in the last thirty years This book adopts a new approach by attempting to contextualise Mallarmé's creative writing in terms of his relationships with other art forms other writers and indeed other cultures At the same time one of his own key obsessions with death is also reassessed as is his relationship to the society of his time Mallarmé's ambitious project was to exploit the potential of dance music and painting as well as poetry in order to produce an artistic monument for the modern post industrial age Experts from all of these fields have therefore combined with literary specialists in order to adopt an interdisciplinary and comparative approach to Mallarmé's work which marks a bold and exciting new departure in Mallarmé studies

Sound Worlds from the Body to the City Ariane Wilson, 2019-03-13 This volume reveals the extent to which aural perception influences our spatial awareness Spanning various fields and practices from psychology to geography and from zoology to urban planning it covers a range of environments in which sounds contribute to forming our sense of space and place The contributions gathered here lead from the mother's womb through the habitats of insects and owls to the resonating bodies of buildings and the city to artistic endeavours that aim to consciously reveal the spatiality of sound In this progression the book demonstrates the profoundly constitutive role of hearing and listening at all stages of our biological and social development as well as the epistemological phenomenological and emotional importance of sound in relation to our construction of space As such it will appeal not only to architects town planners and artists but also to the growing community of scientists and scholars intrigued by sonic issues Differing from both quantitative acoustics and sound design its approach opens new perspectives on the sonic dimension and aural understanding of our environment by tracing analogies between a diversity of spaces formed when sound interacts with listening as a mode of attention

Timba: The Sound of the Cuban Crisis Vincenzo Perna, 2017-07-05 Cuban music is recognized unanimously as a major historical force behind Latin American popular music and as an important player in the development of US popular music and jazz However the music produced on the island after the Revolution in 1959 has been largely overlooked and overshadowed by the Buena Vista Social Club phenomenon The Revolution created the conditions for the birth of a type of highly sophisticated popular music which has grown relatively free from market pressures These conditions premised the new importance attained by Afro Cuban dance music during the 1990s when the island entered a period of deep economic and social crisis that has shaken Revolutionary institutions from their foundations Vincenzo Perna investigates the role of black popular music in post Revolutionary Cuba and in the 1990s in particular The emergence of timba is analysed as a distinctively new style of Afro Cuban dance music The controversial role of Afro Cuban working class culture is highlighted showing how this has resisted co optation into a unified pacified vision of national culture and built musical bridges with the transnational black diaspora Musically timba represents an innovative fusion of previous popular and folkloric Afro Cuban styles with elements of hip hop and other African American styles like jazz funk and salsa Timba articulates a black urban youth subculture with distinctive visual and choreographic codes With its abrasive commentaries on issues such as race consumer culture tourism prostitution and its connections to the underworld timba demonstrates at the street level many of the contradictions of contemporary Cuban society After repeatedly colliding with official discourses timba has eventually met with institutional repression This book will appeal not only to ethnomusicologists and those working on popular music studies but also to those working in the areas of cultural and Black studies anthropology Latin American st

The Oxford Handbook of Music Making

and Leisure Roger Mantie, Gareth Dylan Smith, 2017 The Oxford Handbook of Music Making and Leisure presents myriad ways for reconsidering and refocusing attention back on the rich exciting and emotionally charged ways in which people of all ages make time for making music Looking beyond the obvious this handbook asks readers to consider anew What might we see when we think of music making as leisure **The Consolation of Boethius as Poetic Liturgy** Stephen Blackwood, 2015 Throughout Antiquity and the Middle Ages literature was read with the ear as much as with the eye silent reading was the exception audible reading the norm This highly original book shows that Boethius's Consolation of Philosophy one of the most widely read texts in Western history aims to affect the listener through the designs of its rhythmic sound Stephen Blackwood argues that the Consolation's metres are arranged in patterns that have a therapeutic and liturgical purpose as a bodily mediation of the text's consolation these rhythmic patterns enable the listener to discern the eternal in the motion of time The Consolation of Boethius as Poetic Liturgy vividly explores how in this acoustic encounter with the text philosophy becomes a lived reality and reading a kind of prayer Uptown Conversation Robert G. O'Meally, Brent Hayes Edwards, Farah Jasmine Griffin, 2004 Uptown Conversation asserts that jazz is not only a music to define it is a culture The essays illustrate how for more than a century jazz has initiated a call and response across art forms geographies and cultures inspiring musicians filmmakers painters and poets
