Sixtus V And The Lateran Palace:

Sixtus V and the Lateran Palace Corinne Mandel,1994 **The Architecture of Rome** Ulrich Fürst,1998 Architects and artists have always acknowledged over the centuries that Rome is rightly called the eternal city Rome is eternal above all because it was always young always in its prime Here the buildings that defined the West appeared over more than 2000 years here the history of European architecture was written The foundations were laid even in ancient Roman times when the first attempts were made to design interiors and thus make space open to experience as something physical And at that time the Roman architects also started to develop building types that are still valid today thus creating the cornerstone of later Western architecture In it Rome s primacy remained unbroken whether it was with old St Peter s as the first medieval basilica or new St Peter s as the building in which Bramante and Michelangelo developed the High Renaissance or with works by Bernini and Borromini whose rich and lucid spatial forms were to shape Baroque as far as Vienna Bohemia and Lower Franconia and also with Modern buildings of which there are many unexpected pearls to be found in Rome All this is comprehensible only if it is presented historically i e in chronological sequence and so the guide has not been arranged topographically as usual but chronologically This means that one is not led in random sequence from a Baroque building to an ancient or a modern one but the historical development is followed successively Every epoch is preceded by an introduction that identifies its key features This produces a continuous lavishly illustrated history of the architecture of Rome and thus at the same time of the whole of the West Practical handling is guaranteed by an alphabetical index and detailed maps whose information does not just immediately illustrate the historical picture but also makes it possible to choose a personal route through history **Built Form and Meaning in Sixteenth-century Rome** Rosanna Mortillaro,2010 **The Basilica of Saint John Lateran to 1600** L. Bosman,I. P. Haynes,P. Liverani,2020-09-17 The first inter disciplinary study to examine the construction and development of the world s first cathedral from its origins to 1600 **Propaganda and the Jesuit Baroque** Evonne Levy,2004-04-14 In this provocative revisionist work Evonne Levy brings fresh theoretical perspectives to the study of the propagandistic art and architecture of the Jesuit order as exemplified by its late Baroque Roman church interiors The first extensive analysis of the aims mechanisms and effects of Jesuit art and architecture this original and sophisticated study also evaluates how the term propaganda functions in art history distinguishes it from rhetoric and proposes a precise use of the term for the visual arts for the first time Levy begins by looking at Nazi architecture as a gateway to the emotional and ethical issues raised by the term propaganda Jesuit art once stirred similar passions as she shows in a discussion of the controversial nineteenth century rubric the Jesuit Style She then considers three central aspects of Jesuit art as essential components of propaganda authorship message and diffusion Levy tests her theoretical formulations against a broad range of documents and works of art including the Chapel of St Ignatius and other major works in Rome by Andrea Pozzo as well as chapels in Central Europe and Poland Innovative in bringing a broad range

of social and critical theory to bear on Baroque art and architecture in Europe and beyond Levy's work highlights the subject forming capacity of early modern Catholic art and architecture while establishing propaganda as a productive term for art history Inventing the Council inside the Apostolic Library Filip Malešević, 2021-10-04 The book provides a detailed study of the Biblioteca Apostolica Vaticana and its interior decoration which today still remains inaccessible to the ordinary visitor Placing the history of the Vatican Library in the larger context of how erudition was administered and organized within the Early Modern Roman Curia the book will also take into consideration how the Vaticana was used in contrast to other newly founded libraries **Fountains of Papal Rome**, 1915 A Cyclopaedia of Works of Architecture William Pitt Preble Longfellow, 1903 Fountains of Papal Rome Fanny Davenport Rogers MacVeagh, 1915 The New Learned History, 1923

A Hand-Book for Italy ... including every information explanatory of the routes, mode of travelling ... Architecture in Italy, 1500-1600 Wolfgang Lotz, 1995-01-01 This classic work presents a stimulating survey of the most exciting and innovative period in the history of architecture Lotz also goes beyond the more familiar locations architects and buildings to conquer less well known territories exploring Piedmont and Vitozzi and ending with a study of bizzarrie

Pilgrim-walks in Rome Peter Joseph Chandlery, 1908 **Rome in the Age of Enlightenment** Hanns Gross, 2004-04-22 This is the only scholarly work in the English language on the city of Rome in the Age of the Enlightenment and the only book in any language to treat this fascinating city in all its multifarious aspects Professor Gross combines extensive archival research with the latest findings of other scholars to produce a uniquely rounded portrait of the papal capital elegantly illustrated with contemporary engravings by Piranesi and others The book is divided into two sections in the first of which Professor Gross discusses the material and institutional structures of the city including its demography economy food supply and judicial systems The second section considers aspects of intellectual cultural and artistic life Professor Gross contends not only that ancien regime Rome witnessed a decline in Counter Reformation fervour but that this decay resulted in a marked dissonance in the political social and cultural life of the city Familiar Allusions William Adolphus Wheeler, 1881 Rome Reinhold Schoener, 1898 , **Familiar Allusions: a Hand-Book of Miscellaneous Information** William Adolphus Wheeler, Charles Gardner Wheeler, 2025-08-29 Reprint of the original first published in 1882 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage
