Skill Training for Community Living Arnold P. Goldstein, Robert P. Sprafkin, N. Jane Gershaw, 1976 **Teaching Psychological Skills** Dale Larson, 1984 **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *Behaviour Therapy Nursing* Philip J. Barker, 2025-09-17 The behavioural approach in nursing practice is the main concern of this book originally published in 1982 Although the discussion concentrates on the fields of psychiatry and learning disabilities it is also relevant to other areas of nursing such as the care of the elderly or of sick children The book traces the development of behaviour therapy from its beginnings in the experimental laboratory work of Pavlov Skinner and Watson to the more recent influences of social learning theory A survey is made of the major stages in the therapy process and this is followed by a detailed description of possible types of treatment In conclusion some of the more controversial issues raised in this book are reconsidered along with their implications **The Practice of Psychotherapy (Psychology Revivals)** Lewis R. Wolberg, 2014-08-01 Freud once humorously remarked that Anyone who wants to make a living from the treatment of nervous patients must clearly be able to do something to help them It is amazing how frequently this simple precept is ignored and when a patient does not get well how often the failure is attributed to lack of proper motivation diminutive ego strength latent schizophrenia and a multitude of assorted resistances Difficulties that arise during therapy are not due to a deliberate conspiracy of neglect on the part of the therapist They usually come about because of obstructive situations that develop in work with patients with which the therapist is unprepared to cope During his psychiatric career the author who spent time both teaching and supervising collected and collated questions from students and graduate therapists who had raised concerns about psychotherapy that related to such obstructive situations Originally published in 1982 this volume contains both those questions and his answers Handbook of Social Skills Training and Research Luciano L'Abate, Michael A. Milan, 1985-05-10 The first up to date comprehensive handbook covering the practical approaches to social skills training SST a relatively new concept encompassing a broad range of treatment and counseling approaches designed to help people conduct their social lives more effectively Leading experts summarize the applications of SST and research to special populations special problems couples and families individuals parents and professionals in the United States and Europe Incorporates both behavioral and humanistic approaches **Skillstreaming the Elementary School Child** Ellen McGinnis, Arnold P. Goldstein, 1997 This newly revised book is divided into five skill groups classroom survival skills friendship making skills dealing with feelings alternatives to aggression and dealing with stress Within these skill groups the authors provide strategies for teaching 60 specific prosocial skills such as asking for help saying thank you accepting consequences using self control making a complaint and dealing with group pressure Appendices contain program evaluation forms and a 42 page annotated bibliography of Skillstreaming research The Practice of Psychotherapy (Psychology Revivals) Lewis R. Wolberg, 2014-08-01 Freud once humorously remarked that

Anyone who wants to make a living from the treatment of nervous patients must clearly be able to do something to help them. It is amazing how frequently this simple precept is ignored and when a patient does not get well how often the failure is attributed to lack of proper motivation, diminutive ego strength, latent schizophrenia and a multitude of assorted resistances. Difficulties that arise during therapy are not due to a deliberate conspiracy of neglect on the part of the therapist. They usually come about because of obstructive situations that develop in work with patients with which the therapist is unprepared to cope. During his psychiatric career the author who spent time both teaching and supervising collected and collated questions from students and graduate therapists who had raised concerns about psychotherapy that related to such obstructive situations. Originally published in 1982, this volume contains both those questions and his answers.

Skillstreaming the Adolescent Arnold P. Goldstein, Ellen McGinnis, 1997. This newly revised book is divided into six skill groups: beginning social skills, advanced social skills, dealing with feelings, alternatives to aggression, dealing with stress, and planning skills. The authors provide strategies for teaching 50 specific prosocial skills such as starting a conversation, apologizing, expressing your feelings, standing up for a friend, responding to failure, and setting a goal. Appendices contain program evaluation forms and a 42-page annotated bibliography of Skillstreaming research.

Imaginary Penalties Pat Carlen, 2013-01-11. This book is concerned to explore the idea of imaginary penalties and to understand why the management of criminal justice and criminal justice systems has so often reached crisis point. Its underlying theme is that when political strategies of punitive populism are combined with managerialist techniques of social auditing, a new all-encompassing form of governance has emerged, powerless to deliver what it promises but with a momentum of its own and increasingly removed from proper democratic accountability. A highly distinguished international group of contributors explores this set of themes in a variety of different contexts taken from the UK, N America, Europe, and Australia. It will be essential reading for anybody seeking to understand some of the root causes of increasing prison populations, social harms such as recidivism and domestic violence, and the increasingly important role of criminal justice within systems of governance.
