Social Comparison and Social Psychology Serge Guimond, 2006 Much of our knowledge about ourselves and about the world in which we live is based on a process of social comparison Our tendency to appraise events objects people and social groups by making comparisons has captured the interest of social psychologists for over half

a century This volume provides an up to date synthesis of the latest theoretical and empirical developments in social psychology through research on social comparison processes With chapters by leading theorists and internationally renowned researchers it provides invaluable information on the role of this process of comparison as it occurs within a single individual over time between individuals and between social groups It also features an original international study testing the universality of the effects of social comparison on the self This book will appeal to scholars and students alike and will serve as an important reference for the study of cognition intergroup relations and culture **Routledge International**

Handbook of Social Psychology of the Classroom Christine M. Rubie-Davies, Jason M. Stephens, Penelope Watson, 2015-05-22 The Routledge International Handbook of Social Psychology of the Classroom presents the first comprehensive and integrated compilation of theory and research on topics related to the social cohesion of the classroom Many of these topics have been studied independently for example motivation self concept class management class climate and teacher expectations are generally studied separately by different groups of researchers This handbook brings the evidence from different fields in social psychological classroom research together in one place for the first time to explore how these topics relate and how each factor influences students and their learning With chapters by established international leaders in their fields as well as emerging new talent this handbook offers cutting edge research and surveys the state of the art in the social psychology of the classroom Major areas covered include Motivation Belief self concept and personality Emotional engagement Teacher student relationships Teacher expectation Classroom management Culture and identity The Routledge International Handbook of Social Psychology of the Classroom provides a review of current theories related to the social psychology of the classroom including how these theories apply to classrooms and learners Current evidence clearly shows that areas explored by social psychology and brought together for the first time in this volume can have a very significant impact on classroom learning and student achievement J Hattie Visible Learning A Synthesis of over 800 Meta Analyses Relating to Achievement Routledge 2009 This handbook is a must for all academics whose research relates to the social psychology of the classroom It is also an invaluable resource for teachers and teacher education students who want to understand why they are effective instructors and yet still encounter students in their classes who are not responding as expected **Handbook of Social Psychology, Volume 1** Susan T. Fiske, Daniel T. Gilbert, Gardner Lindzey, 2010-02-15

First published in 1935 The Handbook of Social Psychology was the first major reference work to cover the field of social psychology The field has since evolved and expanded tremendously and in each subsequent edition The Handbook of Social Psychology is still the foremost reference that academics researchers and graduate students in psychology turn to for the most current well researched and thorough information covering the field of social psychology This volume of the Fifth Edition covers the science of social psychology and the social being Handbook of Competence and Motivation Andrew J. Elliot, Carol S. Dweck, David S. Yeager, 2017-03-24 Now completely revised over 90% new this handbook established the

concept of competence as an organizing framework for the field of achievement motivation With an increased focus on connecting theory to application the second edition incorporates diverse perspectives on why and how individuals are motivated to work toward competence in school work sports and other settings Leading authorities present cutting edge findings on the psychological sociocultural and biological processes that shape competence motivation across development analyzing the role of intelligence self regulated learning emotions creativity gender and racial stereotypes self perceptions achievement values parenting practices teacher behaviors workplace environments and many other factors As a special bonus purchasers of the second edition can download a supplemental e book featuring several notable highly cited chapters from the first edition New to This Edition Most chapters are new reflecting over a decade of theoretical and methodological developments Each chapter now has an applied as well as conceptual focus showcasing advances in intervention research Additional topics self regulation in early childhood self determination theory challenge and threat appraisals performance incentives achievement emotions job burnout gene environment interactions class based models of competence and the impact of social group membership Supplemental e book featuring selected chapters from the prior edition
