History of Anthropological Theory Paul A. Erickson,Liam Donat Murphy,2010-01-01 This comprehensive anthology presents 40 readings that are critical to an understanding of anthropological theory and the development of anthropology as an academic discipline The readings have broad anthropological appeal emphasizing social and cultural anthropology The third edition has been completely revised throughout and organized to work more closely alongside the companion overview text *A History of Anthropological Theory* It includes six new readings as well as two original essays written by contemporary anthropologists on Why Theory Matters These new essays help ground the more abstract readings in the collection The glossary has been significantly expanded and the discussion questions have been revised The result is a volume that offers not only a strong foundation in the history of the discipline but also a good overview of developments in twentieth and twenty first century anthropological theory including feminist anthropology postmodernity medical anthropology globalization postcolonialism and public anthropology **Cultural Anthropology** Stephen A. Grunlan,Marvin K. Mayers,2016-11-22 This volume on cultural anthropology presents a Christian perspective for Bible school students of conservative evangelical backgrounds The hope is that a sympathetic approach to the problems of cultural diversity throughout the world will help young people overcome typical North American cultural biases and bring understanding and appreciation for the diversities of behavior and thought that exist in a culturally heterogeneous world Grunlan and Mayers take the position of functional creationism and though they discuss some of the problems implied in traditional interpretations of the age of the world and especially of the creation of the human race they do not attempt to deal with either physical anthropology or the origins of man They do however attempt to deal meaningfully with the problems posed by biblical absolutism and cultural relativism and their practice Concluding chapters with a series of thought provoking questions should prove to be of real help to both the professional and nonprofessional teacher of anthropology **A History of Anthropological Theory, Fifth Edition**

International Committee for Social Science Information and Documentation,1990-12-31 First published in 1981 Routledge is an imprint of Taylor Francis an informa company **Lydia Cabrera and the Construction of an Afro-Cuban Cultural Identity** Edna M. Rodríguez-Plate,2005-11-16 Lydia Cabrera 1900 1991 an upper class white Cuban intellectual spent many years traveling through Cuba collecting oral histories stories and music from Cubans of African descent Her work is

commonly viewed as an extension of the work of her famous brother in law Cuban anthropologist Fernando Ortiz who initiated the study of Afro Cubans and the concept of transculturation Here Edna Rodriguez Mangual challenges this perspective proposing that Cabrera s work offers an alternative to the hegemonizing national myth of Cuba articulated by Ortiz and others Rodriguez Mangual examines Cabrera s ethnographic essays and short stories in context By blurring fact and fiction anthropology and literature Cabrera defied the scientific discourse used by other anthropologists She wrote of Afro Cubans not as objects but as subjects and in her writings whiteness instead of blackness is gazed upon as the other As Rodriguez Mangual demonstrates Cabrera rewrote the history of Cuba and its culture through imaginative means calling into question the empirical basis of anthropology and placing Afro Cuban contributions at the center of the literature that describes the Cuban nation and its national identity

The Making of Anthropology Jacob Pandian, Susan Parman, 2004 This book offers an interpretation of anthropology as a discourse that contrasts the western self and the non western other and shows that the organizing principle of this discourse was the Judeo Christian episteme of the Other in Us that the Christian Church Fathers developed to define why the pagan others were endowed with negative ungodly attributes of humanity It is pointed out that the anthropological application of this episteme to represent and explain the colonized non western others resulted in the emergence of eurocentric hierarchical models of humanity and that although these models of humanity were largely replaced by pluralistic models in the late 20 century anthropology has continued to be linked with the episteme of the other in us Dust jacket

Strangers in the South Seas Richard Lansdown, 2006-01-01 Long before Magellan entered the Pacific in 1521 Westerners entertained ideas of undiscovered oceans mighty continents and paradisaic islands at the far ends of the earth such ideas would have a long life and a deep impact in both the Pacific and the West With the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was accompanied by one in the natural sciences after Darwin's momentous visit to the Galapagos Islands The Pacific produced other challenges for nineteenth century researchers on race and culture and for those intent on exporting their religions to this immense quarter of the globe As the century wore on the region presented opportunities and dilemmas for the imperial powers a process was accelerated by the Pacific War between 1941 and 1945 Strangers in the South Seas recounts and illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers naturalists anthropologists artists and writers some famous some obscure It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance
