Narrating the Everyday Asta Rau, Jan K. Coetzee, Magdalena Wojciechowska, 2019-01-01 The chapters in this book reflect on the practice of using narratives to understand individual and social reality They all reveal dimensions of the same concrete reality contemporary society of Central South Africa Except for two all the chapters originated from research in the program The Narrative Study of Lives situated in the Department of Sociology at the University of the Free State in Bloemfontein South Africa Each chapter opens a window on an aspect of everyday life in Central South Africa Each window displays the capacity of the narrative as a methodological tool in qualitative research to open up better understandings of everyday experience The chapters also reflect on the epistemological journey towards unwrapping and breaking open of meaning Narratives are one of many tools available to sociologists in their quest to understand and interpret meaning But when it comes to deep understanding narratives are particularly effective in opening up more intricate levels of meaning associated with emotions feelings and subjective experiences **Urban Geography in America, 1950-2000** Brian J.L.

Peck,Norman A. Dolch,2000-10-30 This unique collection of case

studies introduces readers to many of the common yet extraordinary social problems in contemporary American society. Employing a symbolic interaction approach to the case studies, the authors identify the origins of the problems, define the issues, and explore the outcomes and potential remedies. The case studies themselves introduce readers to the very personal side of the problems as the emotions, actions, and perceptions of the subjects are revealed and analyzed. The problems studied here are organized into three categories: health-related issues, family issues, and behavior beyond the boundaries, and include many problems that often receive too little attention in the existing literature, making this book an original and timely contribution. Each of the three sections is preceded by a general review of the chapters to follow and offers readers a prelude to the exploration of human thought, language, and behavior captured and illustrated in the case studies. In the first section of the book, problems covered include suicide, anorexia nervosa, alcohol and drug abuse, and AIDS/STDs. The second section covers teenage mothers, domestic violence, divorce, and poverty; child support and deadbeat dads; and homelessness. The last section focuses on sexual harassment, equal protection, and racial exclusion; prostitution; career criminals; mass murder; and serial killers. This book represents a fresh new approach and a welcome addition to the study of social problems in America today.
