## **Suggestions Toward The Reinterpretation Of Christian Doctrine:**

**International Journal of Ethics** ,1905      **Philosophical Theology and Christian Doctrine** Brian

Hebblethwaite,2008-04-15 Philosophical Theology and Christian Doctrine surveys and comments on recent work by philosophers of religion in the analytic tradition on the doctrines of the Christian creed Topics covered include creation Incarnation Trinity salvation and eschatology and the ultimate future of creation Comprehensive survey of core Christian doctrines      The Making and Remaking of Christian Doctrine Sarah Coakley,David Arthur Pailin,1993 Maurice Wiles was Regius Professor of Divinity at the University of Oxford from 1970 1991 To celebrate his seventieth birthday a group of distinguished friends and colleagues have written this important series of original and perceptive essays on the twin themes of making and remaking Christian doctrine The topics covered in this thought provoking collection range from the notion of divine action in Hebrew Wisdom literature to reflections on the nature of the ministry from the concept of God and the doctrines of Christology and of the Trinity to the character of theological reflection and from revelation and tradition to the lex orandi the nature of interpretation in religion and the historical basis of theological understanding      **Theology for**

**Liberal Protestants** Douglas F. Ottati,2013-09-06 A two volume work by Douglas Ottati Theology for Liberal Protestants presents a comprehensive theology for Christians who are willing to rethink and revise traditional doctrines in face of contemporary challenges It is Augustinian claiming that we belong to the God of grace who creates judges and renews It is Protestant affirming the priority of the Bible and the fallibility of church teaching It is liberal recognizing the importance of critical arguments and scientific inquiries a deeply historical consciousness and a commitment to social criticism and engagement This first volume contains sections on method and creation Ottati s method envisions the world and ourselves in relation to God as Creator Judge and Redeemer The bulk of the book offers an in depth discussion of God as Creator the world as creation and humans as good capable and limited creatures      **THE NEW TESTAMENT** Thomas F.

Marshall,2023-04-02 Discover the depths of the New Testament with this comprehensive guide that delves into its historical setting cultural background and context THE NEW TESTAMENT Its Background Setting Content by Thomas F Marshall is an essential resource for Christians seeking a more profound understanding of the Word of God In this meticulously researched and engaging book readers will find a wealth of information to enrich their Bible study experience By examining the people governments and religious leaders of the time along with the geographical and historical context of the New Testament writings Marshall enables readers to extract the true meaning of the Scriptures as intended by the original authors This invaluable guide empowers Christians to move beyond shallow study and towards a deeper more nuanced comprehension of the Bible As Dr Lee M Fields writes Deep study is no guarantee that mature faith will result but shallow study guarantees that immaturity continues With Marshall s expert guidance you will gain the tools and insights needed to elevate your understanding of the New Testament and fortify your faith Whether you are a seasoned Bible scholar or a curious newcomer

THE NEW TESTAMENT Its Background Setting Content is a must read resource that will enrich your spiritual journey and bring the ancient world of the New Testament vividly to life      Meaning and Method in Comparative Theology Catherine Cornille,2019-02-21 The first systematic overview of the field of comparative theology Meaning and Method in Comparative Theology offers a synthesis of and a blueprint for the emerging field of comparative theology It discusses various approaches to the field the impact of religious views of other religions on the way in which comparative theology is conducted and the particularities of comparative theological hermeneutics It also provides an overview of the types of learning and of the importance of comparative theology for traditional confessional theology Though drawing mainly from examples of Christian comparative theology the book presents a methodological framework that may be applied to any religious tradition Meaning and Method in Comparative Theology begins with an elaboration on the basic distinction between confessional and meta confessional approaches to comparative theology The book also identifies and examines six possible types of comparative theological learning and addresses various questions regarding the relationship between comparative and confessional theology Provides a unique and objective look at the field of comparative theology for scholars of religion and theologians who want to understand or situate their work within the broader field Contains methodological questions and approaches that apply to comparative theologians from any religious tradition Recognizes and affirms the diversity within the field while advancing unique perspectives that might be the object of continued discussions among theologians Meaning and Method in Comparative Theology offers an important basis for scholars to position their own work within the broader field of comparative theology and is an essential resource for anyone interested in theology conducted in dialogue with other religious traditions 2021 PROSE Finalist in the Theology Religious Studies category      *Christian Theology* Alister E. McGrath,2016-08-05 Christian Theology An Introduction one of the most internationally acclaimed Christian theology textbooks in use has been completely rewritten for the 6th edition It now features new and extended material and companion resources ensuring it retains its reputation as the ideal introduction for students A new edition of the bestselling Christian theology textbook to celebrate its 25th anniversary Rewritten throughout for exceptional clarity and accessibility and adds substantial new material on the Holy Spirit Features increased coverage of postcolonial theology and feminist theology and prodigious development of world theology Increases the focus on contemporary theology to complement the excellent coverage of historical material A new 2 color design includes more pedagogical features including textboxes and sidebars to aid learning      *A Dictionary of Religion and Ethics* Shailer Mathews,Gerald Birney Smith,1921      **Martin Heidegger's Philosophy of Religion** John Williams,2010-10-30 Following a critical review of previous theological scholarship on Heidegger and a survey of North American philosophy of religion the book examines Heidegger s philosophy of religion and its influence on the North American variety of the same      *How to Do Comparative Theology* Francis X. Clooney,Klaus von Stosch,2017-12-12 For a generation and more the contribution of Christian theology to interreligious understanding has been

a subject of debate Some think of theological perspectives are of themselves inherently too narrow to support interreligious learning and argue for an approach that is neutral or on a more popular level grounded simply open minded direct experience In response comparative theology argues that theology as faith seeking understanding offers a vital perspective and a way of advancing interreligious dialogue aided rather than hindered by commitments theological perspectives can both complement and step beyond the study of religions by methods detached and merely neutral Thus comparative theology has been successful in persuading many that interreligious learning from one faith perspective to another is both possible and worthwhile and so the work of comparative theology has become more recognized and established globally With this success there has come to the fore new challenges regarding method How does one do comparative theological work in a way that is theologically grounded genuinely open to learning from the other sophisticated in pursuing comparisons and fruitful on both the academic and practical levels How To Do Comparative Theology therefore contributes to the maturation of method in the field of comparative theological studies learning across religious borders by bringing together essays drawing on different Christian traditions of learning Judaism and Islam Hinduism and Buddhism the wisdom of senior scholars and also insights from a younger generation of scholars who have studied theology and religion in new ways and are more attuned to the language of the spiritual but not religious The essays in this volume show great diversity in method and also over and over again and from many angles coherence in intent a commitment to one learning from the other and a confidence that one's home tradition benefits from fair and unhampered learning from other and very different spiritual and religious traditions It therefore shows the diversity and coherence of comparative theology as an emerging discipline today Historical Theology Alister E. McGrath, 2012-07-23 Freshly updated for this second edition with considerable new material this authoritative introduction to the history of Christian theology covers its development from the beginnings of the Patristic period just decades after Jesus's ministry through to contemporary theological trends A substantially updated new edition of this popular textbook exploring the entire history of Christian thought written by the bestselling author and internationally renowned theologian Features additional coverage of orthodox theology the Holy Spirit and medieval mysticism alongside new sections on liberation feminist and Latino theologies and on the global spread of Christianity Accessibly structured into four sections covering the Patristic period the Middle Ages and Renaissance the reformation and post reformation eras and the modern period spanning 1750 to the present day addressing the key issues and people in each Includes case studies and primary readings at the end of each section alongside comprehensive glossaries of key theologians developments and terminology Supported by additional resources available on publication at [www.wiley.com/go/mcgrath](http://www.wiley.com/go/mcgrath) *An Exploration of Christian Theology* Don Thorsen, 2020-04-21 This introduction to Christian theology explores the whole Christian tradition in a simple and straightforward way Leading Wesleyan theologian Don Thorsen surveys the theological views represented within historic Christianity and discusses the variety of positions held without favoring one over another The book includes helpful end of

chapter questions for further reflection and discussion a convenient glossary of theological terms and sidebars The second edition is marked by a thorough updating of the text and the addition of two new chapters on apologetics and the future of the unevangelized

**Christian Theology and Religious Pluralism** David S Nah, 2013-01-31 While much has been written analyzing the philosophical basis of Hick's pluralism very little attention has been devoted to the theological foundations of his argument Filling this gap this book examines Hick's theological attempts to systematically deconstruct the church's traditional incarnational Christology Special attention is given to evaluating Hick's foundational theses

**The Teaching Minister**, 1991-01-01 With concise and practical guidelines for recovering the identity of the church Clark Williamson and Ronald Allen demonstrate that the central task of ministry is teaching the Christian faith The authors believe that how well ministers understand what is required of them and how well they do what is required of them is part of the problem of churches today as well as part of the solution

**Encyclopedia of the Reformed Faith** Donald K. McKim, David F. Wright, 1992-01-01 Over 200 international scholars from a variety of denominations have contributed to this outstanding one volume comprehensive reference book Stressing the importance of events persons and theological concepts that have been significant to the Reformed tradition these articles provide authoritative summaries and stimulating discussion

**Ernst Troeltsch and Comparative Theology** Echol Lee Nix, 2010 Ernst Troeltsch and Comparative Theology examines the methodological attempts of Ernst Troeltsch and Robert Neville for discerning Christian normativity The investigation of Troeltsch focuses on his treatment of the absoluteness of Christianity and highlights the crisis brought upon absolute religious claims by the study of the history of religions By rejecting both the supernatural exclusive apologetic of orthodox Protestantism and the evolutionary apologetic of liberal Protestantism Troeltsch insists that theology's method should be the history of religions method die religionsgeschichtliche Methode Like Troeltsch Neville agrees with historical inquiries but contrary to Troeltsch Neville advances an axiological hypothesis to thinking which is founded in valuation Neville explains the role of valuation at the imaginative level of thinking and relates it to his theory of normative truth in religious symbols This study shows that Neville begins with Troeltsch's methodological presuppositions but achieves more normative theology than Troeltsch especially on ways in which God is engaged in symbolically shaped thinking and practice Both thinkers offer creative insights for theology that make possible a critical comparison of truth claims regarding the validity of Christianity in and for a historically conscious age
