## **Suicide Homicide Some Economic Socio:**

*Suicide* Ronald M. Holmes, Stephen T. Holmes, 2005-07-27 Suicide is an ageless concern that has been with us as long as man has existed Forbidden by all religions suicide has nonetheless become such a practical problem that it is now an everyday concern resulting in more annual deaths than homicide Suicide must be seen as a societal and personal problem it is a complex act with no simple explanation The motivation is multifaceted often not understood by the family or by other survivors Suicide Theory Practice and Investigation is the only text available in paperback form that offers an accessible overview of suicide in the United States Written by Ronald M Holmes and Stephen T Holmes two of the foremost authors of murder and violent crime books in the world this book examines the social problem and criminal justice concerns of suicide from unique perspectives The authors discuss the various forms of suicide and analyze the latest data on regional differences and how gender marital status occupation health drug use and religion all influence the practice of suicide Key Features Analyzes suicide letters to provide students with unique perspectives not found in other books Covers investigative techniques that will be of interest to professionals and students alike Includes carefully selected photos to explicate the material covered Categorizes suicide into different types including anomic egoistic altruistic and fatalistic to distinguish the various reasons for which people have taken their own lives Integrates notes within the chapters to show the state of mind for those who commit suicide Explores learnings from suicidal behavior to help readers recognize how better to prevent the practice Suicide is designed for undergraduate and graduate courses in departments of Criminology Criminal Justice Psychology and Forensic Science In addition it can also be used for a variety of other courses including Psychopathology Sociology of Deviance Abnormal Psychology and Violent Crimes This book will also be of interest to anyone looking for a clear understanding of the extent of suicide in the United States

**Depression** B. Mahendra, 2012-12-06 The purpose of this book is to acknowledge the universality of depression to throw some light on those aspects of depression which are neglected in the more conventional treatments of the subject and also to attempt to provide a synthesis between the biological and socio environmental factors which lead to the onset of depression and modify its course A book devoted to depression has the advantage that it has the space at its disposal to explain and clarify concepts and promising ideas that a chapter in even a comprehensive textbook does not have A single author writing about all the relevant aspects of a subject brings with him the merit of uniformity continuity and lack of repetition He is also more fallible in some areas than others which finds an exact parallel in the experience of clinicians in their practice A multi author multi specialist work portrays an air of omniscience and omnicompetence which many clinicians find dispiriting It is likely a considerable number of practising clinicians will have a greater knowledge and experience in some areas of the subject of this book than I have and will feel emboldened to approach others The entire work is informed by historical considerations The lesson of history is to be open minded and not to judge too harshly those that have gone before

Indicators of Crime and Criminal Justice Stephen E.

Fienberg, Albert J. Reiss, 1980      Crime and Social Control in a Changing China Jianhong Liu, Lening Zhang, Steven F. Messner, 2001-08-30 This important edited collection of articles by both Chinese and American scholars attempts to promote a more accurate and in depth understanding of crime and social control in China as it undergoes significant cultural economic and social change The editors contend that as the economic system has been transformed many other social institutions in China have also experienced unprecedented changes including legal institutions and other organizations responsible for social control The essays focus on crime in China and summarize the major structural changes in Chinese society and their effects on crime and justice over the last ten to fifteen years offer an overview of Chinese perspectives on crime examine socio economic changes and their impact on social control and discuss changes in adults and children's courts and the new changes in Chinese policing in Chinese society Organized into four parts this work addresses the nature extent and special features of crime and delinquency in China under conditions of social change It also investigates the question of the social correlation of changing patterns of crime The impact of social transition on the changes in the grassroots level of social control is also discussed Chinese law and criminal justice with particular focus on the courts police and crime prevention are mentioned as well This unique collection of essays is a timely and significant contribution to the fields of comparative criminology social control Chinese studies and legal studies      Questions and Answers in Lethal and Non-lethal Violence, 1993 Homicide Research Working Group. Bongar, 2000-08-10 Multidisciplinary and comprehensive in scope this volume serves as an authoritative overview of scientific knowledge about suicide and its prevention providing a foundation in theory research and clinical applications Issues relevant to clinical case management are highlighted and various treatment modalities are discussed in light of the latest research findings      **Choosing Death** Jeffrey R. Watt, 2001-03-01 In this case study of the Republic of Geneva Jeffrey R Watt convincingly argues the early modern era marked decisive change in the history of suicide His analysis of criminal proceedings and death records shows that magistrates of the sixteenth and early seventeenth centuries often imposed penalties against the bodies and estates of those who took their lives According to beliefs shared by theologian John Calvin magistrates and common folk self murder was caused by demon possession Similar views and practices were found among both Protestants and Catholics throughout Reformation Europe By contrast in the late eighteenth century many philosophies

defended the right to take one's life under certain circumstances Geneva's magistrates in effect decriminalized suicide and even commoners blamed suicide on mental illness or personal reversals not on satanic influences Watt uses Geneva's uniquely rich and well organized sources in this first study to provide reliable evidence on suicide rates for premodern Europe He places his findings within a wide range of historical and sociological scholarship and while suicide was rare through the seventeenth century he shows that Geneva experienced an explosion in self inflicted deaths after 1750 Quite simply early modern Geneva witnessed nothing less than the birth of modern suicide both in attitudes toward it thoroughly secularized medicalized and stripped of diabolical undertones and the frequency of it

**Violence in America: Historical and Comparative Perspectives** United States Task Force on Historical and Comparative Perspectives, 1969 **Who Shall Live? Health, Economics, And Social Choice (Expanded Edition)** Victor R Fuchs, 1998-04-21 In this classic book

Professor Victor Fuchs draws on his deep understanding of the strengths and limitations of economics and his intimate knowledge of health care institutions to help readers understand the problems every nation faces in trying to allocate health resources efficiently and equitably Six complementary papers dealing with national health insurance poverty and health and other policy issues including his 1996 presidential address to the American Economic Association accompany the original 1974 text Health professionals policy makers social scientists students and concerned citizens will all benefit from this highly readable authoritative and nuanced discussion of the difficult choices that lie ahead

**Crime and the Development of Modern Society** Howard Zehr, 2019-03-11 Originally published in 1976 This study deals with crime as social history in Germany and France during the nineteenth century It establishes the broad statistical patterns of crime over the century so that the crime phenomenon can be analysed in the light of the other main trends of economic and social life One basic concern is the relationship between crime and economic condition The second main issue is to establish whether specifically rural and urban patterns of crime can be isolated The third main concern is to establish whether any relationship existed between patterns of delinquency and the social upheaval which accompanied industrialisation and urbanisation These three main issues continue as important questions in considering modern day crime Nineteenth century Germany and France provide an excellent context in which to examine them because of the substantial urbanisation and industrialisation which occurred between 1830 and 1914 As well as providing an important contribution to the history of nineteenth century society this book also indicates important lessons for the contemporary world

**Social Bridges and Contexts in Criminology and Sociology** Lorine Hughes, Lisa Broidy, 2020-12-29 Social Bridges and Contexts in Criminology and Sociology brings together leading scholars to commemorate the illustrious career and enduring contributions of Professor James F Short Jr to the social sciences Although Professor Short is best known as a gang scholar he was a bridging figure who advanced the study of human behavior across multiple domains Individual chapters document Professor Short's intellectual development and highlight the significance of his theoretical and empirical work in a range of specialty areas including suicide and

homicide criminological theory field and self report survey research methodologies white collar crime hazards and risks levels of explanation microsocial group processes and the etiology of gang violence and delinquency A special feature of this book is the collection of brief personal reflection essays appearing after the main chapters Authored by Professor Short s students colleagues collaborators and friends these essays provide powerful testimonials of the influence of his intellectual legacy as well as his generous spirit and commitment to mentorship Written in a clear and direct style this book will appeal to students and scholars of criminology and sociology and all those interested in the important contributions of Professor James F Short Jr to these subject areas      Why Some Politicians Are More Dangerous Than Others James

Gilligan,2013-05-20 Politicians and the political process even in ostensibly democratic countries can be deadly James Gilligan has discovered a devastating truth that has been hiding in plain sight for the past century namely that when America s conservative party the Republicans have gained the presidency the country has repeatedly suffered from epidemics of violent death Rates of both suicide and homicide have sky rocketed The reasons are all too obvious rates of every form of social and economic distress inequality and loss unemployment recessions poverty bankruptcy homelessness also ballooned to epidemic proportions When that has happened those in the population who were most vulnerable have snapped with tragic consequences for everyone These epidemics of lethal violence have then remained at epidemic levels until the more liberal party the Democrats regained the White House and dramatically reduced the amount of deadly violence by diminishing the magnitude of the economic distress that had been causing it This pattern has been documented since 1900 when the US government first began compiling vital statistics on a yearly basis and yet it has not been noticed by anyone until now except with regard to suicide in the UK and Australia where a similar pattern has been described This book is a path breaking account of a phenomenon that has implications for every country that presumes to call itself democratic civilized and humane and for all those citizens voters and political thinkers who would like to help their country move in that direction
