Disciplinarity and Dissent in Cultural Studies Cary Nelson, Dilip Gaonkar, 2013-10-28 First published in 1996 As recently as the early 1990s people wondered what was the future of cultural studies in the United States and what effects its increasing internationalization might have What type of projects would cultural studies inspire people to undertake Would established disciplines welcome its presence and adapt their practices accordingly *Disciplinarity and Dissent in Cultural Studies* answers such questions It is now clear that while striking and innovative work is underway in many different fields most disciplinary organizations and structures have been very resistant to cultural studies Meanwhile cultural studies has

been subjected to repeated attacks by conservative journalists and commentators in the public sphere Cultural studies scholars have responded not only by mounting focused critiques of the politics of knowledge but also by embracing ambitious projects of social political and cultural commentary by transgressing all the official boundaries of knowledge in a broad quest for cultural understanding This book tracks these debates and maps future strategies for cultural studies in academia and public life The contributors to *Disciplinary and Dissent in Cultural Studies* include established scholars and new voices In a series of polemic and exploratory essays written especially for this book they track the struggle with cultural studies in disciplines like anthropology literature and history and between cultural studies and very different domains like Native American culture and the culture of science Contributors include Arjun Appadurai Michael Denning Lawrence Grossberg Cary Nelson Constance Penley Andrew Ross and Lynn Spigel **Pow-Wow** Ishmael Reed, Carla Blank, 2009 Celebrated novelist poet and MacArthur fellow Ishmael Reed follows his groundbreaking poetry anthology *From Totems to Hip Hop* with a provocative survey of American short fiction Louise Erdrich David Stirrup, 2013-07-19 Louise Erdrich is one of the most critically and commercially successful Native American writers This book is the first fully comprehensive treatment of Erdrich's writing analysing the textual complexities and diverse contexts of her work to date Drawing on the critical archive relating to Erdrich's work and Native American literature Stirrup explores the full depth and range of her authorship Breaking Erdrich's oeuvre into several groupings poetry early and late fiction memoir and children's writing Stirrup develops individual readings of both the critical arguments and the texts themselves He argues that Erdrich's work has developed an increasing political acuity to the relationship between ethics and aesthetics in Native American literatures Erdrich's insistence on being read as an American writer is shown to be in constant and mutually inflecting dialogue with her Ojibwe heritage This sophisticated analysis is of use to students and readers at all levels of engagement with Erdrich's writing

recent trends in Native writing build upon and integrate traditional modes of storytelling Sure to be considered a groundbreaking contribution to the field The Columbia Guide to American Indian Literatures of the United States Since 1945 offers both a rich critique of history and a wealth of new information and insight Indigenuity Caroline Wigginton, 2022-10-06 For hundreds of years American artisanship and American authorship were entangled practices rather than distinct disciplines Books like other objects were multisensory items all North American communities and cultures including Native and settler colonial ones regularly made and used All cultures and communities narrated and documented their histories and imaginations through a variety of media All created objects for domestic sacred curative and collective purposes In this innovative work at the intersection of Indigenous studies literary studies book history and material culture studies Caroline Wigginton tells a story of the interweavings of Native craftwork and American literatures from their ancient roots to the present Focused primarily on North America especially the colonized lands and waters now claimed by the United States this book argues for the foundational but often hidden aesthetic orientation of American literary history toward Native craftwork Wigginton knits this narrative to another of Indigenous aesthetic repatriation through the making and using of books and works of material expression Ultimately she reveals that Native craftwork is by turns the warp and weft of American literature interwoven throughout its long history **Narrative Chance** Gerald Robert Vizenor, 1993 Hovedsageligt om de moderne amerikanske indianske forfattere N Scott Momaday Leslie Marmon Silko D Arcy McNickle Louise Erdrich og Gerald Vizenor
