Summoned by Love is a sustained meditation based on the prayer of Charles de Foucauld **Bulletin of the Virginia State Library** Virginia State Library,1912 **The Summons of Love** Mari Ruti,2011 We are conditioned to think love s purpose is to heal wounds make us happy and give our lives meaning When the opposite occurs and love causes us to feel fractured disenchanted and full of existential turmoil our suffering is compounded by the sense that love has failed us or that we ve failed to experience what so many others effortlessly enjoy In this eloquently argued psychologically informed book Mari Ruti portrays love as a much more complex multifaceted phenomenon prompting us to access the depths of human existence Love s ruptures are as important as its triumph The History of the First Discovery and Settlement of Virginia William Stith,1747 Covers events from Columbus to 1621 **Letters to Young and Old** Maria Theresa Earle,1906

The City as Target Ryan Bishop, Gregory Clancey, John W. Phillips, 2012-03-29 Bringing together scholars from a diverse range of disciplines The City as Target provides a sustained and critical response to the relationship between the concept of targeting in its many forms and notions of understanding imagining and shaping the urban Among the many spatial and graphic terms used to describe cities in urban studies the word target is rarely encountered Though equally spatial it differs from these others by implying some motive force and more than that a force with some intentionality To target is to aim to project and ultimately to impact It suggests a space of violence or at least action or movement resulting in displacement which most other terms do not In that sense it is useful underused and perhaps revelatory Rather than approach the city as simply a site of growth processes and developments the contributors to this volume treat it as the recipient of attentions The work draws on a wide variety of geographical sites and historic monuments in order to explore this concept examining and challenging current urban theories It seeks to highlight both the power of The Global City and the current vulnerability and fragility of urban culture exploring the city as a recipient and a culprit in relation to issues including terrorism and urban warfare the latest cyclical failure of global financial markets and the relatively new spectre of environmental unsustainability Offering a unique and relevant contribution to the literature this work will be of great interest to scholars of urban theory international relations postcolonial politics and military studies
