Sun-Face Buddha Cheng Chien,1992-01-01 *Chan Buddhism* Peter D. Herschok,2004-09-30 Chan Buddhism has become paradigmatic of Buddhist spirituality Known in Japan as Zen and in Korea as Son it is one of the most strikingly iconoclastic spiritual traditions in the world This succinct and lively work clearly expresses the meaning of Chan as it developed in China more than a thousand years ago and provides useful insights into the distinctive aims and forms of practice associated with the tradition including its emphasis on the unity of wisdom and practice the reality of sudden awakening the importance of meditation the use of shock tactics the centrality of the teacher student relationship and the celebration of enlightenment narratives or koans Unlike many scholarly studies which offer detailed perspectives on historical development or guides for personal practice written by contemporary Buddhist teachers this volume takes a middle path between these two approaches weaving together both history and insight to convey to the general reader the conditions energy and creativity that characterize Chan Following a survey of the birth and development of Chan its practices and spirituality are fleshed out through stories and teachings drawn from the lives of four masters Bodhidharma Huineng Mazu and Linji Finally the meaning of Chan as a living spiritual tradition is addressed through a philosophical reading of its practice as the realization of wisdom attentive mastery and moral clarity *The Hongzhou School of Chan Buddhism in Eighth- through Tenth-Century China* Jinhua Jia,2012-02-01 This book provides a wide ranging examination of the Hongzhou school of Chan Buddhism the precursor to Zen Buddhism under Mazu Daoyi 709 788 and his successors in eighth through tenth century China which was credited with creating a Golden Age or classical tradition Jinhua Jia uses stele inscriptions and other previously ignored texts to explore the school s teachings and history Defending the school as a full fledged significant lineage Jia reconstructs Mazu s biography and resolves controversies about his disciples In contrast to the many scholars who either accept or reject the traditional Chan histories and discourse records she thoroughly examines the Hongzhou literature to differentiate the original authentic portions from later layers of modification and recreation The book describes the emergence and maturity of encounter dialogue and analyzes the new doctrines and practices of the school to revise the traditional notion of Mazu and his followers as iconoclasts It also depicts the strivings of Mazu s disciples for orthodoxy and how the criticisms of and reflections on Hongzhou doctrine led to the schism of this line and the rise of the Shitou line and various houses during the late Tang and Five Dynasties periods Jia refutes the traditional Chan genealogy of two lines and five houses and calls for new frameworks in the study of Chan history An annotated translation of datable discourses of Mazu is also included **The Records of Mazu and the Making of Classical Chan Literature** Mario

Poceski,2015 The Records of Mazu and the Making of Classical Chan Literature explores the historical growth and transformation of Chan Zen Buddhist literature in medieval China focusing especially on the earliest records of Mazu Daoyi 709 788 It presents important primary materials about classical Chan Buddhism some of them translated for the first time into English

Daoyi 709 788 and his numerous disciples the Hongzhou School emerged as the dominant tradition of Chan Zen Buddhism in China during the middle part of the Tang dynasty 618 907 Mario Poceski offers a systematic examination of the Hongzhou School's momentous growth and rise to preeminence as the bearer of Chan orthodoxy and analyzes its doctrines against the backdrop of the intellectual and religious milieus of Tang China Poceski demonstrates that the Hongzhou School represented the first emergence of an empire wide Chan tradition that had strongholds throughout China and replaced the various fragmented Schools of early Chan with an inclusive orthodoxy Poceski's study is based on the earliest strata of permanent sources rather than on the later apocryphal encounter dialogue stories regularly used to construe widely accepted but historically unwarranted interpretations about the nature of Chan in the Tang dynasty He challenges the traditional and popularly accepted view of the Hongzhou School as a revolutionary movement that rejected mainstream mores and teachings charting a new path for Chan's independent growth as a unique Buddhist tradition This view he argues rests on a misreading of key elements of the Hongzhou School's history Rather than acting as an unorthodox movement the Hongzhou School's success was actually based largely on its ability to mediate tensions between traditionalist and iconoclastic tendencies Going beyond conventional romanticized interpretations that highlight the radical character of the Hongzhou School Poceski shows that there was much greater continuity between early and classical Chan and between the Hongzhou School and the rest of Tang Buddhism than previously thought

Philosophical Hermeneutics and the Priority of Questions in Religions

Nathan Eric Dickman, 2022-02-24

Buddha's gods prophets and oracles are often depicted as asking questions But what are we to understand when Jesus asks Who do you say that I am or Mazu the Classical Zen master asks Why do you seek outside Is their questioning a power or weakness Is it something human beings are only capable of due to our finitude Is there any kind of question that is a power Focusing on three case studies of questions in divine discourse on the level of story the god depicted in the Jewish Bible the master Mazu in his recorded sayings literature and Jesus as he is depicted in canonized Christian Gospels Nathan Eric Dickman meditates on human responses to divine questions He considers the purpose of interreligious dialogue and the provocative kind of questions that seem to purposefully decenter us drawing on methods from confessionally oriented hermeneutics and skills from critical thinking He allows us to see alternative ways of interpreting religious texts through approaches that look beyond reading a text for the improvement of our own religion or for access to some metaphysically transcendent reality This is the first step in a phenomenology of religions that is inclusive diverse relevant and grounded in the world we live in

Patrons and Patriarchs Benjamin Brose, 2015-08-31

Patrons and Patriarchs breaks new ground in the study of clergy court relations during the tumultuous period that spanned the collapse

of the Tang dynasty 618 907 and the consolidation of the Northern Song 960 1127 This era known as the Five Dynasties and Ten Kingdoms has typically been characterized as a time of debilitating violence and instability but it also brought increased economic prosperity regional development and political autonomy to southern territories The book describes how the formation of new states in southeastern China elevated local Buddhist traditions and moved Chan Zen monks from the margins to the center of Chinese society Drawing on biographies inscriptions private histories and government records it argues that the shift in imperial patronage from a diverse array of Buddhist clerics to members of specific Chan lineages was driven by political social and geographical reorientations set in motion by the collapse of the Tang dynasty and the consolidation of regional powers during the Five Dynasties and Ten Kingdoms As monastic communities representing diverse arrays of thought practice and pedagogy allied with rival political factions the outcome of power struggles determined which clerical networks assumed positions of power and which doctrines were enshrined as orthodoxy Rather than view the ascent of Chan monks and their traditions as instances of intellectual hegemony this book focuses on the larger sociopolitical processes that lifted members of Chan lineages onto the imperial stage Against the historical backdrop of the tenth century Patrons and Patriarchs explores the nature and function of Chan lineage systems the relationships between monastic and lay families and the place of patronage in establishing identity and authority in monastic movements

How Zen Became Zen Morten Schlutter,2010-04-30 How Zen Became Zen takes a novel approach to understanding one of the most crucial developments in Zen Buddhism the dispute over the nature of enlightenment that erupted within the Chinese Chan Zen school in the twelfth century The famous Linji Rinzai Chan master Dahui Zonggao 1089 1163 railed against heretical silent illumination Chan and strongly advocated kanhua koan meditation as an antidote In this fascinating study Morten Schlutter shows that Dahui's target was the Caodong Soto Chan tradition that had been revived and reinvented in the early twelfth century and that silent meditation was an approach to practice and enlightenment that originated within this new Chan tradition Schlutter has written a refreshingly accessible account of the intricacies of the dispute which is still reverberating through modern Zen in both Asia and the West Dahui and his opponents arguments for their respective positions come across in this book in as earnest and relevant a manner as they must have seemed almost nine hundred years ago Although much of the book is devoted to illuminating the doctrinal and soteriological issues behind the enlightenment dispute Schlutter makes the case that the dispute must be understood in the context of government policies toward Buddhism economic factors and social changes He analyzes the remarkable ascent of Chan during the first centuries of the Song dynasty when it became the dominant form of elite monastic Buddhism and demonstrates that secular educated elites came to control the critical transmission from master to disciple procreation as Schlutter terms it in the Chan School

Mindful leadership for sustainable peace Thich Duc Thien,Thich Nhat Tu,2019-04-16 EDITORS INTRODUCTION BACKGROUND We are experiencing an unprecedented period where wide ranging and disruptive major global change is taking place around us In this context the theme of Mindful Leadership and Sustainable Development provides a point of reference and pathway for understanding the contemporary chaotic situations These disruptive changes challenge our understanding and meaning of humanity and truly question whether or not we are able to live in a society where justice equality peace and prosperity abound In the Buddhist light a focus is placed on understanding the Buddhist teachings to develop solutions for dealing with these wide ranging problems Both the scope of change and the response from a Buddhist approach are core to the content of this volume It is of paramount importance that any investigation and development of solutions for the changes taking place require guidance from the Buddhist philosophy As a starting point for discussion an initial focus is placed on providing a thorough and critical understanding of the

character and context of change In doing so we also seek to clarify and outline the nature of a Buddhist approach In completing this review it is productive to see that given the complex issues being dealt with the papers do generate different frameworks and viewpoints within the broad term of approach The frameworks based on the Buddha s teachings are not fully fixed and agreed upon by all Therefore our term approach refers to a set of arrangements and viewpoints that act to inspire further discussion and development Given the above context this volume is a collection of conference papers presented and published for the panel on the first sub theme of UNDV 2019 on Mindful Leadership for Sustainable Peace on 13 May 2019 at the Tam Chuc International Convention Center Ha Nam Vietnam The panel commemorates the occasion of the 16th United Nations Day of Vesak Celebrations 2019 Through the contributions of participants and their papers at this workshop this volume provides a diverse and rich range of thinking and wisdom rather than more traditional mainstream thinking or conventional wisdom Treating the Buddha s teachings as a basic theoretical reconstruction we examine the relationships between societies and Buddhism We combine the analyses of the conflicts trends and dynamics affecting future global development with focused studies on a range of policy areas for improving societies In the Buddhist light our two most crucial aims in this period of disruption are to greatly increase the influence and impact of Buddhism as our foremost duty and that the Buddhist responsibility contributes to creating a new foundation for Mindful Leadership and Sustainable Development
