insulated from the world's problems by the wealth and power of his father Noah is far more concerned about the future of his social life than the future of his country But all of that changes when Noah meets Molly Ross a woman who is consumed by the knowledge that the America we know is about to be lost forever She and her group of patriots have vowed to remember the past and fight for the future but Noah convinced they're just misguided conspiracy theorists isn't interested in lending his considerable skills to their cause And then the world changes An unprecedented attack on U.S. soil shakes the country to the core and puts into motion a frightening plan decades in the making to transform America and demonize all those who stand in the way Amidst the chaos many don't know the difference between conspiracy theory and conspiracy fact or more important which side to fight for But for Noah the choice is clear Exposing the plan and revealing the conspirators behind it is the only way to save both the woman he loves and the individual freedoms he once took for granted After five back to back 1 New York Times bestsellers national radio and Fox News television host Glenn Beck has delivered a ripped from the headlines thriller that seamlessly weaves together American history frightening facts about our present condition and a heart stopping plot The Overton Window will educate enlighten and most important entertain with twists and revelations no one will see coming
