Teaching Secondary Students Through Their Individual Learning Styles Rita Dunn, Kenneth J. Dunn, 1993

Teaching Students Through Their Individual Learning Styles Rita Dunn, Kenneth J. Dunn, 1978 **Practical Approaches to Using Learning Styles in Higher Education** Rita Dunn, Shirley A. Griggs, 2000-04-30

Dunn and Griggs challenge the traditional instructional process of lecture discussion in college classroom and describe the theory practice and research that support a wider variety of approaches to better accommodate the learning style preferences of each student. Twenty five practitioners from varied backgrounds and disciplines representing 14 colleges and universities outline alternative strategies they use with diverse students in their institutions of higher education. Some of these practitioners have been using learning style for decades. Others have conducted research to test the various tenets of the Dunn and Dunn Learning Style Model and a few only for the past five years have begun providing instructional strategies that are congruent with their students preferences. A road map is provided for college faculty to assist them in moving toward accommodating students learning style strengths by comparing the major theories of learning styles that range from uni to multi dimensional in scope. Strategies include identifying and administering valid and reliable instruments for assessing college students learning styles interpreting assessment results so that each student becomes aware of his her own strengths and is provided a computer generated prescription for improving their study skills and successfully completing assignments designing instruction to respond to both global and analytic students processing styles developing course content and materials to accommodate the learning style preferences of college students and evaluating the impact of learning styles based instruction.

Teaching Students Through Their Individual Learning Styles , 1995* **Teaching Students Through Their Individual Learning Styles** Rita Stafford Dunn, 1989 *Differentiating Instruction for At-Risk Students* Rita Dunn, Andrea Honigsfeld, 2009

When the activities described herein are introduced to students whose learning styles they match most will demonstrate strong abilities to learn and remember new and difficult content within the first four months of beginning_ if not earlier. This book is written to prevent more children from becoming at risk and to help those who already have fallen behind their classmates and do not enjoy school.

The Struggle for Identity in Today's Schools Patrick M. Jenlink, Faye Hicks Townes, 2009-04-16

The Struggle for Identity in Today's Schools examines cultural recognition and the struggle for identity in America's schools. In particular the contributing authors focus on the recognition and misrecognition as antagonistic cultural forces that work to shape and at times distort identity. What surfaces throughout the chapters are two lessons to be learned in relation to identity. The first lesson is that identities and the acts attributed to them are always forming and re forming in relation to historically specific contexts and these contexts are political in nature i.e defined by issues of diversity such as race ethnicity language sexual orientation gender and economics. The second lesson presented by the authors is that identity forms in and across intimate and social contexts over long periods of time. The historical timing of identity formation cannot

simply be dictated by discourse The identities posited by any particular discourse become important and a part of everyday life based on the intersection of social histories and social actors Importantly the social cultural use of identities leads to another way of conceptualizing histories personhoods cultures and their distributions over social and political groups

Human Resource (Talent) Development Ronald R. Sims, 2023-01-01 The rapidly transforming environment that we live in has made human resource development HRD all the more necessary for the success of today's organizations HRD initiatives help their organizations by developing employees who assist their organizations in not only surviving but thriving in our increasingly global world Today's best practice or benchmarked organizations and their HRD professionals continue to recognize the importance of employee learning knowledge skills and motivation to organizational success This recognition increasingly opens many doors as organizational leaders accept the fact that HRD initiatives can be used to ensure that organization members have what it takes to successfully meet the demands that confront them and their organizations This book takes the position that HRD can demonstrate how their initiatives help to develop a superior workforce so that the organization and its individual employees can accomplish their strategic and operational goals in service to their clients or customers This book is written with the belief that HRD professionals have many opportunities to learn change and find ways both in and outside of the workplace to contribute to the development of learning organizations as we move further into the 21st century A major point of this book is that HRD will continue to become more and more important to organizational success when one considers the increased responsibilities HRD professionals have taken on during and post the COVID pandemic The primary audience for this book is practicing HRM and HRD professionals and other organizational leaders The book provides proven ideas important to demonstrating the value of HRD From a practical viewpoint it is based on actual experience a strong research base and accepted practices presented in an easy to read form A second target audience is students of HRD and HRM who are preparing for careers in this important field This book will help them develop a solid foundation to the study of HRD practices or initiatives that are key to HRD success regardless of the type of organization A third target audience is managers or leaders at all levels of an organization who are expected to take on a number of HRD responsibilities e.g. as trainers coaches mentors change agents and so on while regularly partnering with HRD professionals It offers these individuals a firsthand look at what they should expect of their HRD functions or areas and how they can effectively work with HRD professionals in their organizations to achieve the organizations strategic goals by getting the most out of its human people
