Teaching and Research in Anthropology and Sociology in Eastern African Universities Seyoum G. Selassie, El Wathig Kameir, 1989 African Anthropologies Mwenda Ntarangwi, David Mills, Mustafa H. M. Babiker, 2006-05 Publisher

Description **Education in East and Central Africa** Charl Wolhuter, 2014-06-26 Education in East and Central Africa is a comprehensive critical reference guide to education in the region With chapters written by an international team of leading regional education experts the book explores the education systems of Djibouti Eritrea Ethiopia Kenya Somalia South Sudan Tanzania Uganda Zambia Angola Burundi the Central African Republic the Democratic Republic of Congo Equatorial Guinea and Sao Tome Gabon the Republic of Congo and Rwanda The book critically examines the regional development of education provision in each country as well as recent reforms and global contexts Including a comparative introduction to the issues facing education in the region as a whole and guides to available online datasets this handbook is an essential reference for researchers scholars international agencies and policy makers at all levels *Government and Rural Development in East Africa* L. Cliffe, J.S. Coleman, M.R. Doornbos, 2012-12-06 The gestation period of this collection has been lengthy even by academic standards Some of our long suffering contributors prepared their original drafts for a workshop held in Nairobi in 1967 and although they have all updated their contributions they are still essentially reporting on research conducted in the late 1960s However we feel that their various findings and analyses of the issues they respectively treat have a continuing validity in our comprehension of the problem of rural development Other contributions reporting on more recent work have been incorporated at different times since most of them not commissioned especially for this symposium but all adding something to our understanding of the problem The slow accumulation of material which makes up this final collection parallels an evolution in our own collective thinking if indeed not that of most students of development over the past decade The progression has not been towards final clarification of the complex and changing East African realities nor towards formulation of an accepted model for their analysis rather it has been marked by the questioning of the initial somewhat simplistic assumptions with which some of us started out and a continuing debate and widening polarization of views about the significance of that process of government penetration of the rural areas which is our focus about the positive or negative value of development policies in East Africa and indeed about the appropriate theoretical approaches to the study of development in general *African Higher Education* Damtew Teferra, Philip G. Altbach, 2003-10-02 This book is a comprehensive survey of all aspects and dimensions of higher education in Africa *Food Security, Safety Nets and Social Protection in Ethiopia* Dessalegn Rahmato, Alula Pankhurst, Jan-Gerrit van Uffelen, 2013 This book which examines Ethiopia's food security strategy and the safety net program from different approaches and perspectives in the context of the development of a social protection policy is a continuation of that tradition Ethiopia's safety net program is one of the largest and most influential social protection schemes in Africa and as noted by several authors in this volume provides important

lessons beyond the Ethiopian context Back cover Becoming an African University Carol Sicherman,2005 For four decades Makerere University known as the Oxford of Africa was the sole university level institution in all of East Africa A fabled Mecca for aspiring youth it trained many of the region s first generation of intellectual and political leaders including the present presidents of Kenya and Tanzania It remains one of Africa s most important universities today As one of the first comprehensive look at an African university this book tells the story of Makerere s colonial beginnings its efflorescence during the 1950s and 1960s its calamitous decline during nearly two decades of tyranny and civil war and its resurgence following the restoration of peace and relative stability A Cumulative Bibliography of OSSREA Publications ,2000
