Collaboration in Higher Education Sandra Abegglen, Tom Burns, Sandra Sinfield, 2023-05-18 Collaboration in Higher Education an open access book focuses on the opportunities and challenges created by engaging in collaboration and partnership in higher education As higher education institutions become ever more competitive to sustain their place in a global neoliberal education market students and staff are confronted with alienating practices Such practices create an individualistic audit and surveillance culture that is exacerbated by the recent COVID 19 pandemic and the wholesale pivot to online teaching In this atomised and competitive climate this volume synthesises theoretical perspectives and current practice to present case study examples that advocate for a more inclusive cooperative collaborative compassionate and empowering education one that sees learning and teaching as a practice that enables personal collective and societal growth The human element of education is at the core of this book focusing on what we can do and achieve together students academic staff higher education institutions and relevant stakeholders The ebook editions of this book are available open access under a CC BY NC ND 4 0 licence on bloomsburycollections com Open access was funded by Knowledge Unlatched

How to Be a Learning Developer in Higher Education Alicja Syska, Carina Buckley, 2023-11-27 Filled with practical guidance for those working in and interested in the emergent field of Learning Development this must read book encapsulates what it means to be a Learning Developer and how to thrive in this role With carefully constructed

contributions which explore different aspects of the role this edited collection is comprehensive in its approach. Alongside practical advice it is underpinned by theoretical and epistemological insights to provide a bridge between theory and practice. Organised into five key parts it is arranged in a way that reflects the journey that practitioners take into and through Learning Development from their initiation into the field through professional development to becoming an established expert. It covers key topics such as the basic principles of working in Learning Development, the theoretical and practical foundations of the field, how to engage more critically with the role, how to become an active contributor to the field through research and publication, the as yet unrealised possibilities of Learning Development. Capturing a diverse array of voices, experiences and perspectives, this book is an essential guide for both new and established practitioners concerned with student Learning and Development. Chapters 15 and 21 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license.

Health and Academic Achievement Blandina Bernal-Morales, 2018-09-19. Emotional, physical and social well-being describe human health from birth. Good health goes hand in hand with the ability to handle stress for the future. However, biological factors such as diet, life experiences such as drug abuse, bullying, burnout, and social factors such as family and community support at the school stage tend to mold health problems affecting academic achievements. This book is a compilation of current scientific information about the challenges that students, families, and teachers face regarding health and academic achievements. Contributions also relate to how physical activity, psychosocial support, and other interventions can be made to understand resilience and vulnerability to school desertion. This book will be of interest to readers from broad professional fields, non-specialist readers, and those involved in education policy.

Stories of Hope Sandra Abegglen, Tom Burns, Richard F. Heller, Rajan Madhok, Fabian Neuhaus, John Sandars, Sandra Sinfield, Upasana Gitanjali Singh, 2025-07-02. Higher education is in crisis. Students are disengaged, lecturers are burned out, and universities seem more preoccupied with rankings and revenue than with knowledge and wellbeing. But rather than dwell on the problems, this book focuses on solutions on hope. Bringing together a diverse range of educators and practitioners, this collection showcases real-world innovations that challenge the status quo and offer glimpses of a more humane and inspiring educational future. From rethinking systems and curriculum design to fostering imaginative collaboration and exploring the role of technology, the book highlights practical, hopeful interventions that are already making a difference. This is not a manifesto of complaints but an invitation to reimagine education. The contributors offer fresh perspectives from around the world illustrating how small but meaningful changes can transform learning spaces, empower educators, and inspire students. For academics, teachers, administrators, and anyone invested in the future of education, this book serves as both a source of inspiration and a call to action. It is an evolving ecosystem of ideas grounded in practice, rich with possibility, and rooted in radical hope. Now is the time to create the change we wish to see.
