The Texts in Elementary Classrooms James V. Hoffman, Diane Lemmonier Schallert, 2004-09-22 This CIERA sponsored book is based on the premise that high quality texts of all kinds are essential to good teaching in elementary classrooms. Experts on a variety of text related topics were asked to summarize existing research and then apply it to literacy development in an ideal classroom. The most comprehensive and up to date book in its field, it moves progressively from an examination of discrete literacy processes and forms to a holistic overview and assessment of the classroom literacy environment. Content coverage in this outstanding new book includes: Literacy Processes: Part I examines basic reading processes: instruction, comprehension, word recognition, fluency, and motivation as they relate to text features. Forms of Texts: Part II examines the wide variety of text types: fiction, nonfiction, leveled, local, and electronic that comprise an effective classroom literacy program. Discussions include the nature of these texts, their qualities and quantities, how they fit into an instructional plan, and how a teacher might assess their effectiveness. Text Selection: Part III examines special issues: linguistic diversity and teachers as censors related to the selection of classroom texts. Personal Applications: The final hands-on chapter synthesizes the book's ideas and offers practical tools, checklists, and inventories whereby teachers can self-assess the literacy environment of their own classrooms. This book is suitable for anyone: graduate students, in-service reading specialists, and curriculum directors, college faculty, and researchers who deal directly with issues of classroom literacy. Teaching Language and Literature in Elementary Classrooms Marcia S. Popp, 2006-04-21 This book is designed to help the beginning teacher create a classroom environment that integrates literacy development with learning in all areas of the curriculum. It provides fundamental information about language arts teaching and is meant to be used. *Digital Initiatives for Literacy Development in Elementary Classrooms: Emerging Research and Opportunities* Brown, Sally Ann, 2017-08-11 Children of today are growing up in technology rich environments and spend countless hours engaged with digital tools. It is essential that educators take advantage of children's technological skills once they enter the classroom. *Digital Initiatives for Literacy Development in Elementary Classrooms: Emerging Research and Opportunities* is an essential reference work featuring the latest scholarly research on the benefits of technology integration into classrooms to enhance learning experiences. Including coverage on a number of topics and perspectives such as multimodal literacy, cloud based writing, and social semiotics, this publication is ideally designed for educators, media specialists, instructional technology coaches, literacy coaches, and academics seeking current research on classroom literacy practices. Research in Education, 1974 Balancing Principles for Teaching Elementary Reading James V. Hoffman, Peter Afflerbach, Ann M. Duffy-Hester, Sarah J. McCarthey, James F. Baumann, 2014-04-08 This book appears at a time when the crisis rhetoric about schools teaching and

learning to read is extremely high There is a rising call within the profession for a balanced perspective on reading Balancing Principles for Teaching Elementary Reading aspires to help set the agenda for improving the quality of literacy instruction in the United States by recentring the debate from What s better whole language or phonics to What can we do in reading instruction to prepare all children for the literacy demands of the next century The authors all members of the professional community of reading educators work on a daily basis with teachers in classrooms prospective teachers clinicians and tutors Their goal for this book is to represent what they have learned about effective teaching and learning as members of this community It is written with four purposes in mind to offer a principled conception of reading and learning to read that is considerate of both the personal dimensions of literacy acquisition as well as the changes that are taking place in society to summarize key findings from the research that relate specifically to effective teaching practices to describe current practices in reading instruction with specific comparisons to the principles of effective practice that are identified and to suggest an action agenda that is school based and designed to promote positive changes in the quality of instruction This text offers a perspective for teaching that provokes members of the reading education community to think about their underlying beliefs about teaching and their shared commitment to making schools more effective for the students they serve It is envisioned as a resource to be used in building a community of learners to be read with professional colleagues in a course of study in a teacher researcher book club or in some type of in service setting Readers are encouraged to debate the ideas presented to challenge the authors conceptions with their own reality to make sense within a community about what action is desirable Some specific suggestions and strategies are provided as springboards for further exploration and action
