Hoben,2012-12-06 Rhizobia are bacteria which inhabit the roots of plants in the pea family and fix atmospheric nitrogen for plant growth They are thus of enormous economic importance internationally and the subject of intense research interest Handbook for Rhizobia is a monumental book of practical methods for working with these bacteria and their plant hosts Topics include the general microbiological properties of rhizobia and their identification their potential as symbionts methods for inoculating rhizobia onto plants and molecular genetics methods for Rhizobium in the laboratory The book will be invaluable to Rhizobium scientists soil microbiologists field and laboratory researchers at agricultural research centers agronomists and crop scientists Symbiotic Nitrogen Fixation P. Graham,Michael J. Sadowsky,Carroll P. Vance,2012-12-06 During the past three decades there has been a large amount of research on biological nitrogen fixation in part stimulated by increasing world prices of nitrogen containing fertilizers and environmental concerns In the last several years research on plant microbe interactions and symbiotic and asymbiotic nitrogen fixation has become truly interdisciplinary in nature stimulated to some degree by the use of modern genetic techniques These methodologies have allowed us to make detailed analyses of plant and bacterial genes involved in symbiotic processes and to follow the growth and persistence of the root nodule bacteria and free living nitrogen fixing bacteria in soils Through the efforts of a large number of researchers we now have a better understanding of the ecology of rhizobia environmental parameters affecting the infection and nodulation process the nature of specificity the biochemistry of host plants and microsymbionts and chemical signalling between symbiotic partners This volume gives a summary of current research efforts and knowledge in the field of biological nitrogen fixation Since the research field is diverse in nature this book presents a collection of papers in the major research area of
