**More Everything Forever** Adam Becker, 2025-04-22 This wild and utterly engaging narrative Melanie Mitchell shows why Silicon Valley's heartless baseless and foolish obsessions with escaping death building AI tyrants and creating limitless growth are about oligarchic power not preparing for the future Tech billionaires have decided that they should determine our futures for us According to Elon Musk Jeff Bezos Sam Altman and more the only good future for humanity is one powered by technology trillions of humans living in space functionally immortal served by superintelligent AIs In *More Everything Forever* science journalist Adam Becker investigates these wildly implausible and often profoundly immoral visions of tomorrow and shows why in reality there is no good evidence that they will or should come to pass Nevertheless these obsessions fuel fears that overwhelm reason for example that a rogue AI will exterminate humanity at the expense of essential work on solving crucial problems like climate change What's more these futuristic visions cloak a hunger for power under dreams of space colonies and digital immortality The giants of Silicon Valley claim that their ideas are based on science but the reality is darker they come from a jumbled mix of shallow futurism and racist pseudoscience *More Everything Forever* exposes the powerful and sinister ideas that dominate Silicon Valley challenging us to see how foolish and dangerous these visions of the future are
