Soundpieces Interviews With American Composers:

Soundpieces 2 Cole Gagne, Nicole V. Gagné, 1993 America's foremost composers sound off on musicians critics audiences publishers musical education orchestras and even fellow composers Biographical profiles of the composers and complete catalogs of their compositions with publication information serve as invaluable reference tools *Soundpieces* Nicole V. Gagné, Tracy Caras, 1982 Women Composers and Music Technology in the United States Elizabeth Hinkle-Turner, 2006 This book is the most definitive attempt to date to discuss the achievements of women as composers of experimental and avant garde music from the 1930s to the present day Using a wealth of primary material it also explores currently relevant issues in gender and technology Drawing out the relationships between composers and their working environments and between teachers and students Elizabeth Hinkle Turner discusses the contribution of women composers to electroacoustic music The book includes a bibliography and discography covering the work of ninety composers Writings on Music, 1965-2000 Steve Reich, 2002-04-11 In the mid 1960s Steve Reich radically renewed the musical landscape with a back to basics sound that came to be called Minimalism These early works characterized by a relentless pulse and static harmony focused single mindedly on the process of gradual rhythmic change Throughout his career Reich has continued to reinvigorate the music world drawing from a wide array of classical popular sacred and non western idioms His works reflect the steady evolution of an original musical mind Writings on Music documents the creative journey of this thoughtful groundbreaking composer These 64 short pieces include Reich's 1968 essay Music as a Gradual Process widely considered one of the most influential pieces of music theory in the second half of the 20th century Subsequent essays articles and interviews treat Reich's early work with tape and phase shifting showing its development into more recent work with speech melody and instrumental music Other essays recount his exposure to non western music African drumming Balinese gamelan Hebrew cantillation and the influence of these musics as structures and not as sounds The writings include Reich's reactions to and appreciations of the works of his contemporaries John Cage Luciano Berio Morton Feldman Gyorgy Ligeti and older influences Kurt Weill Schoenberg Each major work of the composer's career is also explored through notes written for performances and recordings Paul Hillier himself a respected figure in the early music and new music worlds has revisited these texts working with the author to clarify their central narrative the aesthetic and intellectual development of an influential composer For long time listeners and young musicians recently introduced to his work this book provides an opportunity to get to know Reich's music in greater depth and perspective **Artful Noise** Thomas Siwe, 2020-07-27 Twentieth century composers created thousands of original works for solo percussion and percussion ensemble Concise and ideal for the classroom Artful Noise offers an essential and much needed survey of this unique literature Percussionist Thomas Siwe organizes and analyzes the groundbreaking musical literature that arose during the twentieth century Focusing on innovations in style and the evolution of the percussion ensemble Siwe offers a historical overview that connects the music

to scoring techniques new instrumentation and evolving technologies as well as world events Discussions of representative pieces by seminal composers examines the resources a work requires its construction and how it relates to other styles that developed during the same period In addition Siwe details the form and purpose of many of the compositions while providing background information on noteworthy artists Each chapter is supported with musical examples and concludes with a short list of related works specifically designed to steer musicians and instructors alike toward profitable explorations of composers styles and eras

The Marvelous Illusion Thomas DeLio,2024 The Marvelous Illusion studies four works by composer Morton Feldman dating from 1970 71 Focusing on the listener s attention to sounds themselves Feldman created the marvelous illusion of sounds shaping into coherent music through the act of perceiving them rather than through the act of composing Each work appears to assemble itself for the listener as they experience it Author Thomas DeLio frames these analyses with a discussion of Feldman s relationships to important contemporaries in other arts revealing that above all Morton Feldman s music is about sound and spontaneity connections arising for the listener as the composition is heard

Action Art John Gray,1993-05-30 This comprehensive international bibliography is the first to attempt documentation of this diverse field covering the history of Artist s Performance It focuses on its early twentieth century antecedents in such movements as Futurism Dada Russian Constructivism and the Bauhaus as well as its peak period in the 1950s 1960s and 1970s with such developments as Gutai Fluxus Viennese Actionism Situationism and Guerrilla Art Action Major emphasis is also given to sources on 115 individual performance artists and groups More than 3700 entries document print and media materials dating from 1914 to 1992 Organized for maximum accessibility the sources are also extensively cross referenced and are indexed by artist subject title and author Three appendices identify reference works libraries and archives and addenda material not found in the book text and two others list artists by country and by group or collective

The Radical Use of Chance in 20th Century Art Denis Lejeune,2012-01 To many chance and art are antagonistic terms But a number of 20th century artists have turned this notion on its head by attempting to create artworks based on randomness Among those three in particular articulated a well argued and thorough theory of the radical use of chance in art Andr Breton writer John Cage composer and Fran ois Morellet visual artist The implications of such a move away from established aesthetics are far reaching as much in conceptual as in practical terms as this book hopes to make clear Of paramount importance in this

coincidentia oppositorum is the suggested possibility of a correlation between the artistic use of chance and a system of thought itself organised around chance Indeed placing randomness at the centre of one's art may have deeper philosophical consequences than just on the aesthetical level

Sourcebook for Wind Band and Instrumental Music Russ Girsberger, Frank L. Battisti, William Berz, 2014-11-01 Meredith Music Resource This

sourcebook was created to aid directors and teachers in finding the information they need and expand their general knowledge. The resources were selected from hundreds of published and on line sources found in journals, magazines, music company catalogs and publications, numerous websites, doctoral dissertations, graduate theses, encyclopedias, various databases, and a great many books. Information was also solicited from outstanding college, university, school, wind band directors, and instrumental teachers. The information is arranged in four sections: Section 1 General Resources About Music; Section 2 Specific Resources; Section 3 Use of Literature; Section 4 Library Staffing and Management.

New Musical Figurations Ronald M. Radano, 2009-05-20. *New Musical Figurations* exemplifies a dramatically new way of configuring jazz music and history. By relating biography to the cultural and musical contours of contemporary American life, Ronald M. Radano observes jazz practice as part of the complex interweaving of postmodern culture, a culture that has eroded conventional categories defining jazz and the jazz musician. Radano accomplishes all this by analyzing the creative life of Anthony Braxton, one of the most emblematic figures of this cultural crisis. Born in 1945, Braxton is not only a virtuoso jazz saxophonist but an innovative theoretician and composer of experimental art music. His refusal to conform to the conventions of official musical culture has helped unhinge the very ideologies on which definitions of jazz, black music, popular music, and art music are founded. *New Musical Figurations* gives the richest view available of this many-sided artist. Radano examines Braxton's early years on the South Side of Chicago, whose vibrant black musical legacy inspired him to explore new avenues of expression. Here is the first detailed history of Braxton's central role in the Association for the Advancement of Creative Musicians, the principal musician-run institution of free jazz in the United States. After leaving Chicago, Braxton was active in Paris and New York, collaborating with Philip Glass, Steve Reich, Frederic Rzewski, and other composers affiliated with the experimental music movement. From 1974 to 1981, he gained renown as a popular jazz performer and recording artist. Since then, he has taught at Mills College and Wesleyan University, given lectures on his theoretical musical system, and written works for chamber groups as well as large opera-scale pieces. The neglect of radical, challenging figures like Braxton in standard histories of jazz, Radano argues, mutes the innovative voice of the African American musical tradition. Refreshingly free of technical jargon, *New Musical Figurations* is more than just another variation on the same jazz theme. Rather, it is an exploratory work as rich in theoretical vision as it is in historical detail.
