Source Of Magic:

Source of Magic Piers Anthony, 2002-03-26 A quest for the source of power threatened to doom the land of Xanth As a ruler of a country steeped in enchantment King Trent was naturally curious about the source of its magic It made sense to order Bink the only one of his subjects immune to supernatural harm to undertake a quest to discover the wellspring of Xanth s uniqueness From the beginning Bink and his companions Chester the centaur and Crombie the soldier transformed into a griffin were harried by an unseen enemy determined to thwart them Even the power of Good Magician Humfrey together with Bink s protective talent scarcely saved their lives Then when Humfrey and Crombie turned against him all seemed lost But Bink s ingenuity and luck prevailed and he reached his goal The King s orders had been carried out But the King had not expected Bink s next act to destroy utterly the magic of Xanth

The Origin of Magic and Religion

William James Perry, 1923 **The Möerden. The Origin of Magic** Amanecer González Cantero, 2023-05-16 Arana has grown oblivious to her origin When his gifts increase and there is no one able to teach him to master the power of his magical current it is time to leave the forest in search of the truth Moaste Mico and Nune set out on the road with her but nothing will go as planned The delicate thread that unites the worlds has been broken and the balance in magic capsizes while selfishness the ideals for the purity of the m erden blood and lies become entangled in the events that will take the young magician and her friends to a future uncertain where they must choose the path to follow well Past present and future intermingle to offer light to the protagonists who must learn to master magic and deal with the m erden to reestablish the bond that was broken Ancients spells dimensional portals and an endless number of characters beings and races will come together in this story to try to reverse the chaos that threatens to make lbora disappear and the Origin of Magic will be the key

A Cognitive Theory of Magic Jesper Sørensen,2007 Magic is a universal phenomenon Everywhere we look people perform ritual actions in which desirable qualities are transferred by means of physical contact and objects or persons are manipulated by things of their likeness In this book S rensen embraces a cognitive perspective in order to investigate this long established but controversial topic Following a critique of the traditional approaches to magic and basing his claims on classical ethnographic cases the author explains magic s universality by examining a number of recurrent cognitive processes underlying its different manifestations He focuses on how power is infused into the ritual practice how representations of contagion and similarity can be used to connect otherwise distinct objects in order to manipulate one by the other and how the performance of ritual prompts representations of magical actions as effective Bringing these features together the author proposes a cognitive theory of how people can represent magical rituals as purposeful actions and how ritual actions are integrated into more complex representations of events This explanation in turn yields new insights into the constitutive role of magic in the formation of institutionalised religious ritual
