Double-Consciousness and the Rhetoric of Barack Obama Robert E. Terrill, 2015-07-30 This incisive work examining Obama s speeches and the theories of W E B DuBois illuminates the influences of words and ideas Choice The racial history of US citizenship is vital to our understanding of both citizenship and race Robert E Terrill argues that to invent a robust manner of addressing one another as citizens Americans must draw on the indignities of racial exclusion that have stained citizenship since its inception In Double Consciousness and the Rhetoric of Barack Obama Terrill demonstrates how President Barack Obama s public address models such a discourse Terrill contends that Obama s most effective oratory invites his audiences to experience a form of double consciousness famously described by W E B Du Bois as a feeling of two ness resulting from the African American experience of always looking at one s self through the eyes of others An effect of cruel alienation this double consciousness can also offer valuable perspectives on society When addressing fellow citizens Obama asks each to share in the peculiar sensation that Du Bois described Through close analyses of selected speeches from Obama s 2008 campaign and first presidential term this book argues that Obama does not present double consciousness merely as a point of view but as an

idiom with which we might speak to one another Of course as Du Bois's work reminds us double consciousness results from imposition and encumbrance so that Obama's oratory presents a mode of address that emphasizes the burdens of citizenship together with the benefits the price as well as the promise

Political Vocabularies Mary E. Stuckey, 2018-03-01 Political Vocabularies FDR the Clergy Letters and the Elements of Political Argument uses a set of letters sent to Franklin D Roosevelt in 1935 by American clergymen to make a larger argument about the rhetorical processes of our national politics At any given moment national politics are constituted by competing political imaginaries through which citizens understand and participate in politics Different imaginaries locate political authority in different places and so political authority is very much a site of dispute between differing political vocabularies Opposing political vocabularies are grounded in opposing characterizations

of the specific political moment its central issues and its citizens for we cannot imagine a political community without populating it and giving it purpose These issues and people are hierarchically ordered which provides the imaginary with a sense of internal cohesion and which also is a central point of disputation between competing vocabularies in a specific epoch Each vocabulary is grounded in a political tradition read through our national myths which authorize the visions of national identity and purpose and which contain significant deliberative aspects for each vision of the nation impels distinct political imperatives Such imaginaries are our political priorities in action Taking one specific moment of political change the author illuminates the larger processes of change competition and stability in national politics **Contrastive Rhetoric**
