of EIL and of World Englishes It challenges the postsecondary education sector to change the discourse around language proficiency to one that engages the pluralism of English As for the applied significance the book contributes to the work on neo racism which means racism goes beyond color to stereotypic foreign cultures nationalities and exotic accents based on cultural distinctions instead of merely skin differences The book contributes to higher education policy and practice pushing a revisioning of ESL in conceptual and pedagogical ways such as designing more culturally oriented curriculum implementing culturally responsive pedagogy and valuing the teaching proficiency more than the language proficiency
