Aboriginal Customary Law: A Source of Common Law Title to Land Ulla Secher,2014-12-01 Described as ground breaking in Kent McNeil's Foreword this book develops an alternative approach to conventional Aboriginal title doctrine It explains that aboriginal customary law can be a source of common law title to land in former British colonies whether they were acquired by settlement or by conquest or cession from another colonising power The doctrine of Common Law Aboriginal Customary Title provides a coherent approach to the source content proof and protection of Aboriginal land rights which overcomes problems arising from the law as currently understood and leads to more just results The doctrine's applicability in Australia Canada and South Africa is specifically demonstrated While the jurisprudential underpinnings for the doctrine are consistent with fundamental common law principles the author explains that the Australian High Court's decision in *Mabo* provides a broader basis for the doctrine a broader basis which is consistent with a re-evaluation of case law from former British colonies in Africa as well as from the United States New Zealand and Canada In this context the book proffers a reconceptualisation of the Crown's title to land in former colonies and a reassessment of conventional doctrines including the doctrine of tenure and the doctrine of continuity With rare exceptions the existing literature does not probe as deeply or question fundamental assumptions as thoroughly as Dr Secher does in her research She goes to the root of the conceptual problems around the legal nature of Indigenous land rights and their vulnerability to extinguishment in the former colonial empire of the Crown This book is a formidable contribution that I expect will be influential in shifting legal thinking on Indigenous land rights in progressive new directions From the Foreword by Professor Kent McNeil to read the Foreword please click on the sample chapter link **Orthodoxy from an Empirical Perspective** Mirko Blagojević,Dragan Todorović,2011 *Cultural Transfer of Music between Byzantium and the West?* Nina-Maria Wanek,2024-05-06 This is the first comprehensive study of Greek language ordinary chants Gloria Doxa Credo Pisteuo Sanctus Hagios and Agnus Dei Amnos tu theu in Western manuscripts from the 9th to 14th centuries These chants known as Missa Graeca have been the subject of academic research for over a hundred years So far however research has been almost exclusively from a Western

point of view without knowledge of the Byzantine sources For the first time this book presents an in depth analysis of these chants and their historical linguistic and theological liturgical environment from a Byzantine perspective The new approach enables the author to refute numerous and largely contradictory theories on the origin and development of the Missa Graeca and provides new answers to old questions
