How Revolutionary Were the Bourgeois Revolutions? Neil Davidson,2012-07-24 An impressive contribution both to the history of ideas and to political philosophy Alasdair MacIntyre author of *After Virtue* Once of central importance to left historians and activists alike recently the concept of the bourgeois revolution has come in for sustained criticism from both Marxists and conservatives In this magisterial work Neil Davidson offers theoretical and historical insights about the nature of revolutions Through extensive research and comprehensive analysis Davidson demonstrates that what is at stake is far from a stale issue for the history books understanding that these struggles of the past offer far reaching lessons for today's radicals A monumental work Neil Davidson has given us what is easily the most comprehensive account yet of the life and times of the concept of bourgeois revolution and has also provided us with a refined set of theoretical tools for understanding the often complex interactions between political revolutions which overturn state institutions and social revolutions which involve a more thoroughgoing transformation of social relations Colin Mooers author of *The Making of Bourgeois Europe* Davidson's book is one of immense and impressive erudition His knowledge of the history of Marxist theory and historiography is as detailed as it is comprehensive and must be well nigh unrivalled The endless complex debates that characterize the Marxist tradition are distilled with clarity and illumination Times Literary Supplement A brilliant and fascinating book wide ranging and lucidly written Jairus Banaji author of *Theory as History*

Wynar, 1988 1970 issued in 2 vols v 1 General reference social sciences history economics business v 2 Fine arts humanities science and engineering **The Left Case Against the EU** Costas Lapavistas, 2018-12-05 Many on the Left see the European Union as a fundamentally benign project with the potential to underpin ever greater cooperation and progress If it has drifted rightward the answer is to fight for reform from within In this iconoclastic polemic economist Costas Lapavistas demolishes this view He contends that the EU's response to the Eurozone crisis represents the ultimate transformation of the union into a neoliberal citadel that institutionally embeds austerity privatization and wage cuts Concurrently the rise of German hegemony has divided the EU into an unstable core and dependent peripheries These related developments make the EU impervious to meaningful reform The solution is therefore a direct challenge to the EU project that stresses popular and national sovereignty as preconditions for true internationalist socialism Lapavistas's powerful manifesto for a left opposition to the EU upends the wishful thinking that often characterizes the debate and will be a challenging read for all on the Left interested in the future of Europe Securitization Outside the West Christian Kaunert, Edwin Ezeokafor, 2022-07-01 This book analyses securitization processes outside of the West with a focus on Africa The aim of the volume is to develop an original analytical framework to explain the securitization neo patrimonialism dynamics in West Africa drawing upon insights from securitization theory sociology and psychology Among critical voices securitization has become the gold standard for analysing emerging challenges such as migration terrorism and human security Yet despite its broadening agenda the framework has also been accused of bias with a Western political context and democratic governance structure at its heart This book aims to re conceptualise the framework in a way that suits non Western contexts better notably by re conceptualising the securitization neopatrimonialism nexus in Africa which gives us significant new insights into non Western political contexts It analyses the securitization processes among the political elites under neo patrimonial statehood and further stretches the conceptualisation of securitization into African statehood which is characterised by a blurred line between the leader and the state The volume explores the processes of securitizing threats in Liberia Sierra Leone and wider West Africa as well as the neo patrimonial regimes of these states In doing so it explores the influence these states neo patrimonial regimes have on the processes of threat securitization This book will be of much interest to students of critical security studies African politics and International Relations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
