Franchthi Cave and is the third and final installment of the report on the site's chipped stone industries The objective of
Catherine Perlès's study is to make sense of the chronology of the site in its economic technological and typological
dimensions All phases of the Neolithic are represented at Franchthi Cave Rich with more than 3 000 reconstructed pieces
this study offers a representative and technical typology that is unequalled today The first part of the analysis offers
diagnostic elements to facilitate comparisons between the lithic sequence and surface dating and is more descriptive than
interpretive The second part is dedicated to a step by step analysis of the Franchthi material in a well defined chrono
stratigraphical framework The third and most interpretive portion of the study addresses itself more specifically to those who
are interested in the socio economic organizational problems of Neolithic societies Excavations at Franchthi Cave Greece

Steineck, Ralph Weber, Robert Gassmann, Elena Lange, 2018-05-07 The contributions to *Concepts of Philosophy in Asia and the Islamic World* reflect upon the problems implied in the received notions of philosophy in the respective scholarly literatures They ask whether and for what reasons a text should be categorized as a philosophical text or excluded from the canon of philosophy and what this means for the concept of philosophy The focus on texts and textual corpora is central because it makes authors expose their claims and arguments in direct relation to specific sources and discourages

generalized reflections on the characteristics of for example Japanese culture or the Indian mind The volume demonstrates that close and historically informed readings are the sine qua non in discussing what philosophy is in Asia and the Islamic world just as much as with regard to Western literature Contributors are Yoko Arisaka Wolfgang Behr Thomas Fr hlich Lisa Indraccolo Paulus Kaufmann Iso Kern Ralf M ller Gregor Paul Lisa Raphals Fabian Sch fer Ori Sela Rafael Suter Christian Uhl Viatcheslav Vetrov Yvonne Schulz Zinda and Nicholas Zufferey *Bulletin of the School of Oriental Studies, London Institution* University of London. form of socialism within a unique interpretation of Marxism In this volume African and Caribbean writers who are concerned with contemporary issues demonstrate the vitality of Negritude as a poetic philosophical and literary movement and as an ideological response to oppression that is still relevant in its presentation of cultures Clearly it is necessary to go beyond the notion of race implied in the term and to focus on the cultural philosophical and aesthetic elements in order to appreciate the relevance of Negritude today Most notably in the Caribbean or Brazil Negritude has been transformed into original ideological and aesthetic projects
