

**What is the source of our first suffering? It
lies in the fact that we hesitated to
speak... It was born in the moment when we
accumulated silent things within us.**

Day's Collacon: an Encyclopaedia of Prose Quotations, 1884 *Scare Quotes from Shakespeare* Martin Harries, 2000 This book argues that moments of allusion to the supernatural in Shakespeare are occasions where Karl Marx and John Maynard Keynes register the perseverance of haunted structures in modern culture This reenchantment at the heart of modernity and of literary and political works central to our understanding of modernity is the focus of this book The author shows that allusion to supernatural moments in Shakespeare's scare quotes allows writers to both acknowledge and distance themselves from the supernatural phenomena that challenge their disenchanted understanding of the social world He also uses these modern appropriations of Shakespeare as provocations to reread some of his works notably *Hamlet* and *Macbeth* Two pairs of linked chapters form the center of the book One pair joins a reading of Marx concentrating on *The Eighteenth Brumaire* to *Hamlet* the other links a reading of Keynes focusing on *The Economic Consequences of the Peace* to *Macbeth* The chapters on Marx and Keynes trace some of the strange circuits of supernatural rhetoric in their work Marx's use of ghosts and Keynes's fascination with witchcraft The sequence linking Marx to *Hamlet* for example has as its anchor the Frankfurt School's concept of the phantasmagoria the notion that it is in the most archaic that one encounters the figure of the new Looking closely at Marx's association of the Ghost in *Hamlet* with the coming revolution in turn illuminates *Hamlet*'s association of the Ghost with the supernatural beings many believed haunted mines An opening

chapter discusses Henry Dircks a nineteenth century English inventor who developed and then lost his claim to a phantasmagoria or machine to project ghosts on stage Dircks resorted to magical rhetoric in response to his loss which is emblematic for the book as a whole charting ways the scare quote can paradoxically continue the work of enlightenment

The Religious System of China, Its Ancient Forms, Evolution, History and Present Aspect, Manners, Customs and Social Institutions Connected Therewith Jan Jakob Maria Groot,1901

Rich and Strange Marianne DeKoven,2021-07-13 Like the products of the sea change described in Ariel s song in The Tempest modernist writing is rich and strange Its greatness lies in its density and its dislocations which have until now been viewed as a repudiation of and an alternative to the cultural implications of turn of the century political radicalism Marianne DeKoven argues powerfully to the contrary maintaining that modernist form evolved precisely as a means of representing the terrifying appeal of movements such as socialism and feminism Organized around pairs and groups of female and male signed texts the book reveals the gender inflected ambivalence of modernist writers Male modernists desiring utter change nevertheless feared the loss of hegemony it might entail while female modernists feared punishment for desiring such change With water imagery as a focus throughout DeKoven provides extensive new readings of canonical modernist texts and of

works in the feminist and African American canons not previously considered modernist Building on insights of Luce Irigaray Klaus Theweleit and Jacques Derrida she finds in modernism a paradigm of unresolved contradiction that enacts in the realm of form an alternative to patriarchal gender relations
