of painting writing architecture and photography on the construction of a shared romanticized landscape subjectivity that was perceived as inseparable from being South African and thus helped forge the imagined community of white South Africa

In its innovative approach to South Africa's history *Washed with Sun* breaks important new ground combining the persuasive theory of cultural geography with the material specificity of landscape history *A General Catalogue of Books in the South African Public Library, Cape Town, Cape of Good Hope* South African Public Library, 1881 *Global Neoproterozoic Petroleum Systems* Jonathan Craig, 2009 Worldwide Neoproterozoic successions are major hydrocarbon producers In North Africa large basins with significant surface outcrops and thick sedimentary fills are widespread These basins are now emerging as potential sources of hydrocarbons and are attracting interest both from geological researchers and the oil and gas industry This volume focuses on recent developments in the understanding and correlation of North African basin fills and explores novel approaches to prospecting for source and reservoir rocks The papers cover aspects of petroleum prospectivity and age equivalent global petroleum systems Neoproterozoic tectonics and paleogeography sequence stratigraphy glacial events and global climatic models faunal and floral evolution and the deposition of early source rocks The broader aim is to compare with and learn from well studied Neoproterozoic successions globally including major environmental change the emergence of life the global carbon cycle and implications for hydrocarbon exploration *British Books in Print* , 1924 *The Education Gazette of the Province of the Cape of Good Hope* Cape of Good Hope (South Africa). Education Department, 1913 *Vegetation and Erosion* J. B. Thornes, 1990-07-19 Stressing the significance of vegetation in geomorphology an often ignored area it presents the results of the 1988 British Geomorphological Research Group conference which brought together work in progress or recently completed on plant processes and geomorphological interactions According to the editor these results while encouraging are only a start indicating a preponderance of past work dealing with vegetation simply as an extrinsic variable The text focuses on vegetation as a highly dynamic and vital component that affects virtually all processes and therefore all geomorphological histories By raising these and other issues it indicates a variety of avenues for future investigation *Bookseller and the Stationery Trades' Journal* , 1909 **The Bookseller** , 1912 *The Oxford Handbook of the Archaeology and Anthropology of Rock Art* Bruno David, Ian J. McNiven, 2018-10-17 Written by leading experts in the field The Oxford Handbook of the Archaeology and Anthropology of Rock Art showcases the latest advances in methods and theories of rock art research This volume appeals to rock art archaeology and anthropology students and scholars with interests in symbolic practices and processes visual arts cultural heritage management and Indigenous studies **The Publishers Weekly** , 1920 *Encyclopedia of World Geography* R.
