Historical Dictionary of South Africa Christopher Saunders, Peter Limb, 2020-12-15 As the most influential and powerful country on the entire continent of Africa an understanding of South Africa's past and its present trends is crucial in appreciating where South Africans are going to and from where they have come South Africa changed dramatically in 1994 when apartheid was dismantled and it became a democratic state Since 2000 when the previous edition appeared further big changes occurred with the rise of new political leaders and of a new black middle class There were also serious problems in governance in public health and the economy but with a remarkable popular resilience too This third edition of Historical Dictionary of South Africa contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about South Africa

Postcolonial Transitional Justice Khanyisela Moyo, 2019-05-31 Transitional justice processes are now considered to be crucial steps in facilitating the move from conflict or repression to a secure democratic future This book contributes to a deeper understanding of transitional justice by examining the complexities of transition in postcolonial societies It focuses particularly on Zimbabwe but draws on relevant comparative material from other postcolonial polities Examples include but are not limited to African countries such as South Africa Rwanda and Mozambique European societies such as Northern Ireland as well as other nations such as Guatemala are also considered While amplifying the breadth of the subject of transitional justice the book addresses the claim that transitional justice mechanisms in postcolonial countries are necessary if the rule of law and the credibility of the country's legal institutions are to be restored Drawing on postcolonial legal theory and especially on analyses of the relationship between international law and imperialism the book challenges the assumption that a domestic rule of law deficit may be remedied with recourse to international law Taking up the

paradigmatic perception that international law is neutral and has fixed rules it demonstrates how complex issues which arise during postcolonial transitions require a more critical adoption of transitional justice mechanisms

South Africa's Road to Change, 1987-1990 Jacqueline Kalley, 1991-08-30 South Africa's search for a way through repression violence and the various attempts at reform to a nonracial democracy has been a frustrating one for participants and observers alike The political logjam was broken by President F W de Klerk's speech of February 2 1990 and the response of the ANC The release of Nelson Mandela the unbanning of political organizations and the beginning of the negotiation process were highlights in the period under review By focusing on the period from 1987 to August 1990 Kalley brings forward her well received South Africa Under Apartheid At the same time she provides an opportunity for researchers outside South Africa to gauge viewpoints from the widest spectrum of political persuasions The bibliography is organized in one alphabetical sequence by author or title The preponderance of articles cited is in English and where this is not the case titles in other languages have been translated All information on imprint collation and series is provided in English The bibliography is supplemented by an author index which includes corporate and individual authors editors sponsoring bodies and institutes and by a subject index which links keywords to specific entries This bibliography will be invaluable to all researchers seeking materials on contemporary South African affairs

South Africa and Africa Adebayo Adedeji, 1996 The New Democratic South Africa led by the African National Congress is in the process of making fundamental choices Will South Africa's future be one where the needs of the majority population are at last addressed A future where its hegemonic relations with neighbouring states are restructured in an equitable direction A future where South Africa stands up for its own interests and those of Africa Or alternatively will the new leadership become distanced from its popular roots and pushed into a globalizing perspective which marginalizes its own immiserated classes and an immiserated continent These are some of the inter related questions which the contributors to this volume South African African and Western scholars and participants in the process explore In a context which portrays the current state of Africa's political economy and the legacy of apartheid within South Africa itself the political security and in particular economic dimensions of South Africa's present and possible future relations with the rest of the Continent are examined This book's wealth of concrete information cogent analysis and informed clarification of the choices available make it a valuable policy relevant contribution It also marks the start of ACDESS's ambitious research programme on this theme
