Matisoff,Douglas S. Noonan,2022-11-03 This book develops a path to decarbonization through a process of Green Market Transformation Matisoff and Noonan assess the scope and impact of the green building movement which is working towards decarbonizing a sector that accounts for more than a third of global carbon emissions They describe the role of the movement in addressing sustainability challenges within the building and construction sector and suggest new ways of marshalling markets through the voluntary efforts of industry to shift society towards a better future Matisoff and Noonan tell the success story of green industry seen through the lens of green buildings and ecolabels By combining case studies with recent interdisciplinary scholarship the authors provide a compelling narrative of the opportunities and limitations of reliance on voluntary approaches to regulation      **Monthly Catalog of United States Government Publications, Cumulative Index** United States.
