South Asian Economic Development Moazzem Hossain, Rajat Kathuria, 2009-12-10 South Asia s developing nations have been enjoying moderate to high growth over the past decade before the global recession began This new edition provides an up to date guide to the growing markets in South Asia It offers an analysis of the changes and consequences of high sustainable growth investigating what has been achieved in the region during the last ten years from a macroeconomic viewpoint identifying new challenges and clearly defining what has driven the boom The first part of the textbook presents an analysis of how South Asia is rated against Southeast and East Asia in recent decades in economic and social terms The second part of the text focuses on South Asia s economic development over 1990s and mid 2000s and the third and final part identifies those major governance issues which were responsible for South Asia s underperformance both socially and economically It is widely recognised that globalisation enhanced global trade and that trade further increased the region s prosperity Embracing the view that economists can no longer regard themselves as technocratic guardians of neutral policy advice the book advocates for a shift in focus from policy reform per se to the more challenging task of implementing institutional reform that will invigorate the capability of the political leadership to bring about rapid sustained and poverty reducing growth in South Asia The central task would be to re direct the focus of governments in South Asia in order to ensure that the core functions of the state stable non distortionary policy climate a secure foundation of law investment in basic education health and infrastructure protection of the vulnerable and adapting with the climate change are efficiently provided At the same time the reform agenda must be sensitive to the goal of ensuring that durable democratic institutions traditions and values are preserved This is a fundamental challenge but one that must be met in order to secure the emergence of a prosperous South Asia in the early part of the twenty first century This textbook will be useful for

students and researchers in Development Economics Business Economics Development Studies and Asian Studies *Trade and Regional Integration in South Asia* Selim Raihan,Prabir De,2020-04-27 Gathering contributions from leading academics and international trade experts from South Asia this book is dedicated to the late Dr Saman Kelegma whose untimely death in June 2017 left a huge void in the field of regional economic cooperation Keeping in mind his enduring legacy regarding regional cooperation in South Asia it covers issues related to the challenges of deeper regional integration in South Asia and proposes strategies to address these challenges It also offers an up to date rigorous academic analysis of various issues related to low intra regional trade in South Asia prevalence of tariff barriers incidence of a range of non tariff measures challenges of weak trade related infrastructure and the need for trade facilitation the political economics of regional integration highlighting how bilateral political relations affect the integration process low level of intra regional investment South Asia s pattern of integration with the global and regional value chains pattern and dominance of informal trade and alternative regional integration initiatives in South Asia such as the bilateral regional and sub regional trade agreements within and countries outside this region Intended primarily for researchers and students of international trade and policymakers from South Asia and beyond the book is also a valuable supplementary reference resource for researchers and students Furthermore the pragmatic analysis of the policy options presented offers guidance for policymakers in South Asia wanting to implement effective policies and strategies for deeper regional integration **Strategic Cooperation and**
