transformed from a struggling British colonial outpost into a global financial capital *Made in Hong Kong* delivers a new
narrative of this metamorphosis revealing Hong Kong both as a critical engine in the expansion and remaking of postwar
global capitalism and as the linchpin of Sino U S trade since the 1970s Peter E Hamilton explores the role of an overlooked
transnational Chinese elite who fled to Hong Kong amid war and revolution Despite losing material possessions these
industrialists bankers academics and other professionals retained crucial connections to the United States They used these
relationships to enmesh themselves and Hong Kong with the U S through commercial ties and higher education By the 1960s
Hong Kong had become a manufacturing powerhouse supplying American consumers and by the 1970s it was the world s
largest sender of foreign students to American colleges and universities Hong Kong s reorientation toward U S international
leadership enabled its transplanted Chinese elites to benefit from expanding American influence in Asia and positioned them
to act as shepherds to China s reengagement with global capitalism After China s reforms accelerated under Deng Xiaoping
Hong Kong became a crucial node for China s export driven development connecting Chinese labor with the U S market
Analyzing untapped archival sources from around the world this book demonstrates why we cannot understand postwar
globalization China s economic rise or today s Sino U S trade relationship without centering Hong Kong *Books in Series*
