Globalization and European Welfare States Robert Sykes, D. Bouget, Pauline M. Prior, Jo Campling, 2001-06-07 This book seeks to counter the recent trend of speculation about the impact of globalization upon welfare states It begins by asking two related questions What exactly is globalization How if at all has globalization been implicated in recent changes to European welfare states The book combines both theoretical and empirical analysis to provide a critical account of the relationship between globalization and change in European welfare states Firstly the key theoretical and conceptual debates are reviewed and the existing perspectives on globalization and welfare policy change are assessed The text moves on to explore and challenge the more apocalyptic economic perspectives on globalization and welfare that suggest permanent retrenchment The discussion includes an outline and assessment of the role of international organisations such as the World Bank and the EU All the major types of European national welfare system are considered Bismarkian Southern Central and Eastern European Nordic and Liberal Individual chapters outline recent welfare policy changes in the European countries of each system and the role of globalization in such changes This ground breaking text provides new empirical and theoretical perspectives on links between globalization and European welfare state change It will be important reading for students and academics in the fields of social policy politics international relations European studies and related fields

Welfare State Transformation in the Yugoslav Successor States

Marija Stambolieva, 2016-04-28 Welfare states are the product of economic political and social interactions and undergo changes as these interactions transform Existing welfare state theories mainly tend to explain the emergence and development of the welfare state in the western industrialized and capitalist world While the states of Central and Eastern Europe have recently been integrated in the academic discourse the countries of the former Yugoslavia have been predominantly excluded from comparative analysis Issues of nationalism and ethnic polarization have been prevalent there while socio economic issues have been put on the back burner This book explores what happened to the strong social states and relatively equal societies which existed in Slovenia Croatia Serbia and Macedonia and looks into what accounts for these diverse outcomes By investigating the applicability of the theories on welfare state development and typologization it fills in the gap in the welfare state literature It offers an original typology of social citizenship that takes into account the diversity of welfare policy formations across the region The aim of this typology is not to compete with existing ones but rather to offer a framework for better understanding of states that do not necessarily fit into known explanatory categories In a global context of changing economic circumstances and contending political responses macroeconomic policy and welfare state reform become order of the day By featuring the ways that states adjust to new pressures this book s arguments may come in handy to those trying to make sense of the crisis and the powers that drive the policy solutions

Recent Social Trends in France, 1960-1990 Michel Forsé, International Research Group on the Comparative Charting of Social Change in Advanced Industrial Societies, 1993 Over the three decades from 1960 to 1990 French society underwent a spectacular transformation due to the baby boom which was particularly broad based and prolonged in France and caused the population to climb by a full one third At the same time the French economy expanded and the pace of modernization picked up with the result that the wealth of the French quadrupled in a single generation The turning point between the reconstruction and development period and the period of profound social change appears to have been 1965 The

baby boom was over by then and the production system was shifting in orientation No longer dominated by the growth of basic industries production was now starting to focus on consumer goods and services *Recent Social Trends in Greece, 1960-2000* Dimitris Charalambis, Laura Maratou-Alipranti, Andromachi Hadjiyanni, 2004-02-25 The newest volume in the Comparative Charting of Social Change series highlights the main elements of demographic social political and economic development in Greece during the period 1960-2000 Based on a systematic analysis of available information and data this volume provides an overview of Greece's socio-economic profile which changed significantly during the studied period The collapse of the dictatorship in 1974 and Greece's entry into the European Union EU in 1980 have led to a consolidation of democratic institutions and the improvement of living standards During the 1960s and 1970s the country experienced high rates of economic development and relatively low unemployment rates However this increase in economic development has slowed since the early 1980s and the unemployment rate has risen particularly among young people Consistent with recent social trends in other Western societies Greek society has become more tolerant and permissive with more diverse and flexible moral norms However the prevailing family model remains traditional and the Greek Orthodox Church continues to have a strong influence on many aspects of Greek society including social political and cultural life The organization of work also follows traditional patterns despite the introduction of new and flexible forms of employment Female participation in the labour market remains relatively low despite legislation and regulations that promote equality of opportunities between the sexes Consistent with recent social trends in other Western societies Greece's population is aging and the birth rate has stabilized at a relatively low level Contributors include Ioannis Antonopoulos Dimitri Economou University of Thessalia Evi Fagadaki Thomas Maloutas University of Thessalia Alberto Martinelli Ioannis Myrizakis Theodore Papadogonas Apostolos g Papadopoulos University of Ioannina Roy Panagiotopoulou Apostolis Rafailidis economist Paris Tsartas University of Aegean Kostas Yannakopoulos Elisabeth Allison Dionisis Balourdos Nikos Bouzas Kaliroi Daskalaki Amalia Frangiskou Emmy Fronimou Panayiotis Kafetzis Roxanne Kaftantzoglou John Kallas Chrysa Kappi Maria Ketsetzopoulou Helene Kovani Evdokia Manologlou Joannis Micheloyiannakis Alikí Mouriki Panagiota Papadopoulou Ioanna Papathanassiou Christos Papatheodorou Marina Petronoti Nikos Sarris Theoni Stathopoulou Hara Stratoudaki Haris Symeonidou Maria Thanopoulou Olga Tsakirides Joanna Tsiganou Christina Varouxí Efi Venizelou and Ersi Zacopoulou are all researchers at the National Centre for Social Research EKE **Contemporary Greece and Europe** Achilleas Mitsos, Elias Mossialos, 2019-07-17 This title was first published in 2000 Contemporary Greek society is characterized by an all embracing trend for reform This task however is constrained by problems of Greek polity rooted in the historical and political culture This text explores the important facets of divergence between Greece and the EU examining the process through which they affect the relative performance of the country in the economic social political and international relations fronts together with significant attempts to modernize and rationalize internal and external policies and structures The book is in five parts In the first introductory section Greece's
