Tourism and the Growth of Atlanta

Harvey K. Newman

Southern Hospitality Tourism And The Growth Of Atlanta

David Faflik

Southern Hospitality Tourism And The Growth Of Atlanta:

Southern Hospitality Harvey K. Newman, 1999 Newman shows how the cultural tradition of hospitality has encouraged the growth of Atlanta's convention and tourist industry and contributed to the city's rapid development. Harvey Newman finds that the international attention Atlanta enjoys because of its recent hosting of the Olympics is actually the culmination of a tradition of boosterism that dates back to antebellum times and the central place of hospitality within southern culture. Newman's study considers how social forces, historic events, and major entrepreneurs have influenced Atlanta's commercial development. Throughout the city's history, Newman observes, the value of southern hospitality has ensured ongoing support for efforts to develop hospitality as a commercial enterprise. Newman calls particular attention to how issues of race, gender, ethnicity, and class have affected the development of the Atlanta hospitality industry. African Americans traditionally provided much of the labor for the industry, first as slaves who cooked, cleaned, carried bags, and shined shoes at railroad inns and later as workers in the restaurants and hotels established in the central city. Segregation led African Americans to develop their own commercial areas and business districts. In the early years, women, black and white, found that hospitality was one of the few industries in which they were allowed to work. White widows often ran boarding houses, and black women found work cooking and cleaning in hotels and restaurants. Although the transformation of downtown Atlanta into a tourist and convention center has provided jobs for many residents, Newman concludes that people in the central city, mostly African Americans, have not shared equally in the region's overall economic growth. Instead, Newman considers the division and tension between downtown and the suburbs and he questions whether the city should continue to make large public investments in hospitality businesses that are available in other localities and do not reflect the region's specific culture. Instead, Newman suggests the city invest in smaller projects, especially those that emphasize the culture of the South and those that aim to revitalize African American neighborhoods and promote the culture of the South shared by blacks and whites.

The Southern Hospitality Myth Anthony Szczesiul, 2017-06 Hospitality as a cultural trait has been associated with the South for well over two centuries, but the origins of this association and the reasons for its perseverance often seem unclear. Anthony Szczesiul looks at how and why we have taken something so particular as the social habit of hospitality, which is exercised among diverse individuals and is widely varied in its particular practices, and so generalized it as to make it a cultural trait of an entire region of the country. Historians have offered a variety of explanations of the origins and cultural practices of hospitality in the antebellum South. Economic historians have at times portrayed southern hospitality as evidence of conspicuous consumption and competition among wealthy planters, while cultural historians have treated it peripherally as a symptomatic expression of the southern code of honor. Although historians have offered different theories, they generally agree that the mythic dimensions of southern hospitality eventually outstripped its actual practices. Szczesiul examines why we have chosen to remember and valorize this particular aspect of the South and he raises fundamental

ethical questions that underlie both the concept of hospitality and the cultural work of American memory particularly in light of the region's historical legacy of slavery and segregation

Planning in the USA Barry Cullingworth, 2004-06 This extensively revised and updated edition of *Planning in the USA* continues to provide a comprehensive introduction to the policies theory and practice of planning Outlining land use urban planning and environmental protection policies this fully illustrated book explains the nature of the planning process and the way in which policy issues are identified defined and approached

Planning in the USA J. B. Cullingworth, Roger W. Caves, 2009 This revised edition continues to provide a comprehensive introduction to the policies and practices of planning Discussing land use urban planning and environmental protection policies the text explains the nature of the planning process

The Oxford Encyclopedia of Food and Drink in America Andrew Smith, 2013-01-31 Home cooks and gourmets chefs and restaurateurs epicures and simple food lovers of all stripes will delight in this smorgasbord of the history and culture of food and drink Professor of Culinary History Andrew Smith and nearly 200 authors bring together in 770 entries the scholarship on wide ranging topics from airline and funeral food to fad diets and fast food drinks like lemonade Kool Aid and Tang foodstuffs like Jell O Twinkies and Spam and Dagwood hoagie and Sloppy Joe sandwiches

Authentic New Orleans Kevin Fox Gotham, 2007-12-01 Honorable Mention for the 2008 Robert Park Outstanding Book Award given by the ASA's Community and Urban Sociology Section Mardi Gras jazz voodoo gumbo Bourbon Street the French Quarter all evoke that place that is unlike any other New Orleans In *Authentic New Orleans* Kevin Fox Gotham explains how New Orleans became a tourist town a spectacular locale known as much for its excesses as for its quirky Southern charm Gotham begins in the aftermath of Hurricane Katrina amid the whirlwind of speculation about the rebuilding of the city and the dread of outsiders wiping New Orleans clean of the grit that made it great He continues with the origins of Carnival and the Mardi Gras celebration in the nineteenth century showing how through careful planning and promotion the city constructed itself as a major tourist attraction By examining various image building campaigns and promotional strategies to disseminate a palatable image of New Orleans on a national scale Gotham ultimately establishes New Orleans as one of the originators of the mass tourism industry which linked leisure to travel promoted international expositions and developed the concept of pleasure travel Gotham shows how New Orleans was able to become one of the most popular tourist attractions in the United States especially through the transformation of Mardi Gras into a national even international event All the while Gotham is concerned with showing the difference between tourism from above and tourism from below that is how New Orleans distinctiveness is both maximized some might say exploited to serve the global economy of tourism as well as how local groups and individuals use tourism to preserve and anchor longstanding communal traditions

Planning in the USA J. Barry Cullingworth, Roger Caves, 2013-12-05 This extensively revised and updated fourth edition of *Planning in the USA* continues to provide a comprehensive introduction to the policies theory and practice of planning Outlining land use urban planning and environmental protection policies this fully illustrated

book explains the nature of the planning process and the way in which policy issues are identified defined and approached This full colour edition incorporates new planning legislation and regulations at the state and federal layers of government updated discussion on current economic issues and examples of local ordinances in a variety of planning areas Key updates include a new chapter on planning and sustainability a new discussion on the role of foundations and giving to communities a discussion regarding the aftermath of Katrina in New Orleans a discussion on deindustrialization and shrinking cities a discussion on digital billboards a discussion on recent comprehensive planning efforts a discussion on land banking a discussion unfunded mandates a discussion on community character a companion website with multiple choice and fill the blank questions and test yourself glossary terms This book gives a detailed account of urbanization in the United States and reveals the problematic nature and limitations of the planning process the fallibility of experts and the difficulties facing policy makers in their search for solutions Planning in the USA is an essential book for students planners and all who are concerned with the nature of contemporary urban and environmental problems

A Culinary History of Atlanta Akila Sankar McConnell, 2012-05-22 Discover iconic dishes notorious restaurants and the rich culinary history of this Southern city along with fourteen delicious recipes Atlanta s cuisine has always been an integral part of its identity From its Native American agricultural roots to the South s first international culinary scene food has shaped this city often in unexpected ways Trace the evolution of iconic dishes like Brunswick stew hoecakes and peach pie while celebrating Atlanta s noted foodies including Henry Grady Martin Luther King Jr and Nathalie Dupree Be transported to the beginnings of notable restaurants and markets including Durand s at the Union Depot Busy Bee Caf Mary Mac s Tearoom the Municipal Market and the Buford Highway Farmers Market With fourteen historic recipes culinary historian Akila Sankar McConnell proves that food will always be at the heart of Atlanta s story

Reconstructing Dixie Tara McPherson, 2003-03-31 A cultural studies reading of white southern femininity as seen in a range of popular sites including novels television and tourist attractions

Sharing the Prize Gavin Wright, 2013-02-25 Southern bus boycotts and lunch counter sit ins were famous acts of civil disobedience but were also demands for jobs in the very services being denied blacks Gavin Wright shows that the civil rights struggle was of economic benefit to all parties the wages of southern blacks increased dramatically but not at the expense of southern whites

Georgia Sullivan, Buddy, Georgia Historical Society, 2010-05-10 Georgia A State History opens a window on our rich and sometimes tragic past and reveals to all of us the fascinating complexity of what it means to be a Georgian Georgia s past has diverged from the nation s and given the state and its people a distinctive culture and character Some of the best and the worst aspects of American and Southern history can be found in the story of what is arguably the most important state in the South Yet just as clearly Georgia has not always followed the road traveled by the rest of the nation and the region Explaining the common and divergent paths that make us who we are is one reason the Georgia Historical Society has collaborated with Buddy Sullivan and Arcadia Publishing to produce Georgia A State History the first

full length history of the state produced in nearly a generation Sullivan s lively account draws upon the vast archival and photographic collections of the Georgia Historical Society to trace the development of Georgia s politics economy and society and relates the stories of the people both great and small who shaped our destiny *New Orleans on Parade* J. Mark Souther,2013-10-07 *New Orleans on Parade* tells the story of the Big Easy in the twentieth century In this urban biography J Mark Souther explores the Crescent City s architecture music food and alcohol folklore and spiritualism Mardi Gras festivities and illicit sex commerce in revealing how New Orleans became a city that parades itself to visitors and residents alike Stagnant between the Civil War and World War II a period of great expansion nationally New Orleans unintentionally preserved its distinctive physical appearance and culture Though business civic and government leaders tried to pursue conventional modernization in the 1940s competition from other Sunbelt cities as well as a national economic shift from production to consumption gradually led them to seize on tourism as the growth engine for future prosperity giving rise to a veritable gumbo of sensory attractions A trend in historic preservation and the influence of outsiders helped fan this newfound identity and the city s residents learned to embrace rather than disdain their past A growing reliance on the tourist trade fundamentally affected social relations in New Orleans African Americans were cast as actors who shaped the culture that made tourism possible while at the same time they were exploited by the local power structure As black leaders influence increased the white elite attempted to keep its traditions including racial inequality intact and race and class issues often lay at the heart of controversies over progress Once the most tolerant diverse city in the South and the nation New Orleans came to lag behind the rest of the country in pursuing racial equity Souther traces the ascendancy of tourism in New Orleans through the final decades of the twentieth century and beyond examining the 1984 World s Fair the collapse of Louisiana s oil industry in the eighties and the devastating blow dealt by Hurricane Katrina in 2005 Narrated in a lively style and resting on a bedrock of research *New Orleans on Parade* is a landmark book that allows readers to fully understand the image making of the Big Easy **Through the Heart of Dixie** Anne S. Rubin,2014 *Through the Heart of Dixie* Sherman s March and American Memory **The Postsouthern Sense of Place in Contemporary Fiction** Martyn Bone,2014-01-13 For generations southern novelists and critics have grappled with a concept that is widely seen as a trademark of their literature a strong attachment to geography or a sense of place In the 1930s the Agrarians accorded special meaning to rural life particularly the farm in their definitions of southern identity For them the South seemed an organic and rooted region in contrast to the North where real estate development and urban sprawl evoked a faceless raw capitalism By the end of the twentieth century however economic and social forces had converged to create a modernized South How have writers responded to this phenomenon Is there still a sense of place in the South or perhaps a distinctly postsouthern sense of place Martyn Bone innovatively draws upon postmodern thinking to consider the various perspectives that southern writers have brought to the concept of place and to look at its fate in a national and global context He begins with a revisionist assessment

of the Agrarians who failed in their attempts to turn their proprietary ideal of the small farm into actual policy but whose broader rural aesthetic lived on in the work of neo Agrarian writers including William Faulkner and Eudora Welty By the 1950s adherence to this aesthetic was causing southern writers and critics to lose sight of the social reality of a changing South Bone turns to more recent works that do respond to the impact of capitalist spatial development on the South and on the nation generally including that self declared international city Atlanta Close readings of novels by Robert Penn Warren Walker Percy Richard Ford Anne Rivers Siddons Tom Wolfe and Toni Cade Bambara illuminate evolving ideas about capital land labor and class while introducing southern literary studies into wider debates around social cultural and literary geography Bone concludes his remarkably rich book by considering works of Harry Crews and Barbara Kingsolver that suggest the southern sense of place may be not only post Agrarian or postsouthern but also transnational

Sandhill Cities J. Mark Souther, 2025-08-05 Sandhill Cities is a comparative history of Augusta Columbus and Macon Georgia in the twentieth century Weaving together southern urban and environmental history J Mark Souther narrates urban boosters hopes and actions in their pursuit of metropolitan stature in three midsized cities situated along the fall line running through the middle of the state

The Frontier of Leisure Lawrence Culver, 2012-06-07 Tracing the history of Southern California from the late 19th century through the late 20th century this book reveals how this region did much more than just create lavish resorts like Santa Catalina Island and Palm Springs it literally remade American attitudes towards leisure

International Handbook on the Economics of Mega Sporting Events Wolfgang Maennig, Andrew S. Zimbalist, 2012 From the Olympics to the World Cup mega sporting events are a source of enjoyment for tens of thousands but can also be a source of intense debate and controversy This insightful new Handbook addresses a number of central questions including How are host cities selected and under what economic conditions How are these events organized and how is local resistance overcome Based on historical and empirical experience what are the pitfalls for the organizers of these events What are the potential economic benefits including any international image effects How can the costs be minimized and the benefits maximized for host cities and countries How do these mega events impact the challenges of globalization and what is their environmental legacy Compiled and edited by two internationally renowned sports economists the expert contributions elaborate on the specific mechanisms of the bid processes analyse the determining factors of winning bids and illustrate how to construct future bid campaigns Underpinned by case studies from four continents and by theoretical considerations the reasons for seemingly systemic cost overruns are explored and analysed as are the effects on national and regional employment and income property values non traditional economic variables such as psychological and marketing benefits and urban branding and transformation The Handbook also reflects on important elements of design of the games in order to better plan prepare and allocate resources including for example sustainability issues and the use of campaigns to secure positive perceptions This book provides an up to date analysis of the financing and economic impact of mega sporting events

as well as a full discussion of how host cities can maximize the benefits from their experience As such it will prove a fascinating read for academics students researchers and policymakers with an interest in economics and public sector economics generally and more specifically in the economics of sport **Drastic Dykes and Accidental Activists** La Shonda Mims, 2022-11-29 After World War II Atlanta and Charlotte emerged as leading urban centers in the South redefining the region through their competing metropolitan identities Both cities also served as home to queer communities who defined themselves in accordance with their urban surroundings and profited to varying degrees from the emphasis on economic growth Uniting southern women s history with urban history La Shonda Mims considers an imaginatively constructed archive including feminist newsletters and queer bar guides alongside sources revealing corporate boosterism and political rhetoric to explore the complex nature of lesbian life in the South Mims s work reveals significant differences between gay men s and lesbian women s lived experiences with lesbians often missing out on the promises of prosperity that benefitted some members of gay communities Money class and race were significant variables in shaping the divergent life experiences for the lesbian communities of Atlanta and Charlotte whiteness especially bestowed certain privileges In Atlanta an inclusive corporate culture bolstered the city s queer community In Charlotte tenacious lesbian collectives persevered as many queer Charlotteans leaned on Atlanta s enormous Pride celebrations for sanctuary when similar institutional community supports were lacking at home *The Family in America* Joseph M. Hawes, Elizabeth F. Shores, 2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers Family in America offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change *Boarding Out* David Faflik, 2012-09-30 Driven by intensive industrialization and urbanization the nineteenth century saw radical transformations in every facet of life in the United States Immigrants and rural Americans poured into the nation s cities often ahead of or without their families As city dwellers adapted to the new metropolis boarding out became for a few short decades the most popular form of urban domesticity in the United States While boarding s historical importance is indisputable its role in the period s literary production has been overlooked In Boarding Out David Faflik argues that the urban American boardinghouse exerted a decisive shaping power on the period s writers and writings Addressing the works of canonical authors such as Henry David Thoreau Nathaniel Hawthorne and Oliver Wendell Holmes as well as neglected popular writers of the era such as Fanny Fern and George Lippard Faflik

demonstrates that boarding was at once psychically artistically and materially central in the making of our shared American culture
