Works covered include books, monographs, atlases, book chapters, scholarly articles, dissertations, and theses. The contents are organized first by region into main chapters, and then each chapter is divided into sections: General Studies, Cultural and Social Geography, Economic Geography, Historical Geography, Physical Geography, Political Geography, and Urban Geography. Each section is further subdivided into specific topics within each main subject. All known publications on the geographical studies of Canada in English, French, and other languages covering all types of geography are included in this bibliography. With engaging chapters such as *How Not to Write a PhD Thesis*, *Neolithic Italy*, and *Accidentally Digging Central America's Earliest Village*, readers are transported to the desks, digs, and data labs of the authors, learning the skills, tricks of the trade, and potential pitfalls of archaeological fieldwork and collections research. Case studies collectively span many regions, time periods, issues, methods, and materials. From the pre-Columbian Andes to Viking Age Iceland, North America to the Middle East, Medieval Ireland to remote north Australia, and Europe to Africa and India, *Engaging Archaeology* is packed with rich, first-hand source material. Silliman's guide is an essential course book for early stage researchers, advanced undergraduates, and new graduate students, as well as those teaching and mentoring. It will also be
