Symbolic War The Chinese Use Of Force 1840198:

Symbolic War Jonathan R. Adelman, Zhiyu Shi, 1993 Patterns in China's Use of Force Mark Burles, Abram N. Shulsky, 2000 The People's Republic of China has often used force in ways that surprised and perplexed other countries. The Chinese appear to believe that by carefully designing military operations to achieve maximum political effect they can successfully use force even when the overall military balance is unfavorable. China's past successes in using force in this way while avoiding a massive reaction from its adversaries may give it confidence that it can succeed in the future as well. And China may feel that it can afford to accept greater risks. Many of the past uses of force occurred when China either was not a nuclear power or did not have a secure nuclear second strike capability. The possession of strategic nuclear weapons may enable the Chinese leadership to run risks that it otherwise could not. This is tempered however by the facts that China ran its past risks when it had some degree of support from one superpower against the other and that after decades of economic development China now has more to lose if it underestimates the risks. Why War? Andy Schader, Dartmouth College. Department of Government, 1998
