Sorcery and Shamanism Donald Joralemon,Douglas Sharon,1993 The curanderos of northern Peru traditional healing specialists who invoke Jesus Christ and the saints with a mescaline sacrament and a shamanic rattle are not vestigial curiosities nor are their patients rural illiterates without access to modern medicine Instead many of these shamans have thriving urban practices with clients from all levels of society

Sorcery and Shamanism documents the lives and rituals of twelve curanderos offering a perspective on their curing role and shared knowledge. Authors Donald Joralemon and Douglas Sharon also consider the therapeutic experiences of over one hundred patients including case histories and follow ups. They offer a broad view of the shamans work in modern Peruvian society particularly in connection with gender based conflicts. The significant work goes a long way toward dispelling the stereotype of shamans as enigmatic and wise showing them to be pragmatic curers confronting the health effects of everyday aggressions and betrayals.
