Erdos, 2025-07-23 This book adopting a systemic transdisciplinary perspective explores the sociopsychological and the psychosocial interfaces shaping people's lived experiences of liminality It is about life's outstandingly chaotic and confusing moments regularly recurring in or under calamitous circumstances pervading our lives in the 21st century Prospects for constructive change have traditionally been present in transformative liminal settings The broad context of permanent liminality however is conducive to impasses in the process of change The resulting liminal hotspots are characterized by a turmoil of negative feelings and increased suggestibility In the book discursive analyses underpin and illustrate the key points Part I of the book serves as an introduction exploring the mixed potential inherent languaging and symbol use in the social construction of transitions and liminal phenomena Part II comprises sociopsychological analyses of the contexts as labyrinths of meaning of today's globalized and mazed societies where economy politics and information communication technologies are closely intertwined to maintain trickster liminality This part includes explorations on two distinct forms of manipulative discourse characteristic of authoritarian regimes highlighting the role of double bind relations that permeate a despotic system to perpetuate unpredictability chaos and repeated entrapments in liminal hotspots The author explores the discursive practices altering the traditional patterns of transformative liminality into the absurdity of permanent liminality with its self-destructive power Part III is about the psychosocial interface focusing on the intersubjective domain of the individual's lived experiences specifically on the phenomenological connections between rites of transition and psychosocial crises Further it comprises explorations on the prospects for transformative liminality inherent in dialogue As a conclusion humans' constructive potential must be coupled with care to benefit from transformations Transitioning from one form of process into

the subsequent one remains an intrinsic and mercurial event in human development Let us embrace these moments but embrace them with care Transitions Liminality as Lived Experience is primarily intended for scholars as well as students master s level or PhD in the broad area of social sciences especially in social communication discourse studies counselling semiotic cultural psychology social psychology and clinical social work **Blessed to Be a Blessing** Leanne Hadley,2016-08-01 Blessed to be a Blessing Sacred Circle Time for Young Children is designed specifically for young children using a simple but effective model that will move them beyond learning about God to experiencing God through ritual wonder story prayer and blessing Dr Leanne Hadley provides all the leadership tools as well as ideas for resources that all congregations have already on hand Sacred Circle Time is ideal for use in a variety of settings including your church preschool daycare special events or even at home to fit your schedule either 10 to 15 minutes or 40 to 60 minutes depending on the time you have available and the ages of the children and because the lessons were intentionally designed to use everyday supplies rather than expecting you to buy additional materials **Balkan Life Courses** Klaus Roth, Milena Benovska (Eds.) ,2019 The historical upheavals in Southeast Europe since the early 20th century brought about deep transformations of people s life courses The concept of life course enables the understanding of human lives within their socio cultural and political contexts stressing people s everyday experiences and agency The papers in this volume discuss problems such as the impact of migration and mobility on families such as economic migration transforming traditional structures into individualistic strategies Other papers give examples of ruptures of life worlds caused by the impact of dramatic historical events Demonstrating the agency of actors instead of presenting them as passive victims some authors present approaches that are innovative for the region Apart from various forms of migration and their impact on life courses the volume also includes contributions on the role of religion and social memory in the family **Osiris N.** Biyot Kesh Tripathy,1985-01-01 **Epiphanies** Sophie Grace Chappell,2022 Epiphanies is a philosophical exploration of epiphanies peak experiences wow moments or ecstasies as they are sometimes called What are epiphanies and why do so many people so frequently experience them Are they just transient phenomena in our brains or are they the revelations of objective value that they very often seem to be What do they tell us about the world and about ourselves How if at all do epiphanies fit in with our moral systems and our theories of how to live And how do epiphanic experiences fit in with the rest of our lives These are Sophie Grace Chappell s questions in this ground breaking new study of an area of inquiry that has always been right under our noses but remains surprisingly under explored in contemporary philosophy
