Symphonic Suite:

The Life and Twelve-Note Music of Nikos Skalkottas Eva Mantzourani, 2016-03-03 Nikos Skalkottas is perhaps the last great undiscovered composer of the twentieth century. In the 1920s he was a promising young violinist and composer in Berlin and a student of Schoenberg who included him among his most gifted pupils. It was only after his return to Greece in 1933 that Skalkottas became an anonymous and obscure figure working in complete isolation until his death in 1949. Most of his works remained unpublished and unperformed during his lifetime and although he is largely known for his folkloristic tonal pieces, Skalkottas in fact concentrated predominantly on developing an idiosyncratic dodecaphonic musical language. Eva Mantzourani provides here a comprehensive study of this fascinating yet under-researched composer. The book lavishly illustrated with musical examples is divided into three parts. Part I comprises a critical biography that by drawing extensively on his letters and other writings reappraises the image of Skalkottas with which we are often presented. The main focus of the book however is on Skalkottas's twelve-note compositional processes since these characterize the majority of his output and are neither well known nor fully understood. Part II presents the structural and technical features of his twelve-note technique, particularly the different types of sets and their manipulation and his approach to musical forms. Part III consists of analytical case studies of several works presented chronologically which thus provide a diachronic framework within which Skalkottas's dodecaphonic compositional development can be more effectively viewed. This book underlines Nikos Skalkottas's importance as a composer with a distinctive artistic personality whose work contributed to the development of twelve-note compositional practice and who deserves a more significant position within the Western art music canon than that to which he is often assigned.

Daniels' Orchestral Music David Daniels, David W. Oertel, David A. Rahbee, 2022-06-30 Daniels' Orchestral Music is the gold standard for all orchestral professionals from conductors, librarians, programmers, students, administrators and publishers to even instructors seeking to research and plan an orchestral program, whether for a single concert or a full season. This sixth edition, celebrating the fiftieth anniversary of the original edition, has the largest increase in entries for a new edition of Orchestral Music: 65% more works (roughly 14,050 total) and 85% more composers (2,202 total) compared to the fifth edition. Individual appendices make it easy to browse works with chorus, solo voices, or solo instruments. Other appendices list orchestral works by instrumentation and duration, as well as works intended for youth concerts. Also included are significant anniversaries of composers, composer groups for thematic programming, a title index, an introduction to Nieweg charts, essential bibliography, internet sources, institutions, and organizations, and a directory of publishers necessary for the orchestra professional. Britten's Gloriana Paul Banks, 1993 This volume is based on a selection of papers presented during a study course devoted to *Gloriana* held at the Britten Pears School for Advanced Musical Studies in 1991 *Gloriana* has been a source of controversy since its premiere as part of the Coronation celebrations in 1953 It was planned as a national opera of broad appeal by its authors Benjamin Britten and William Plomer but despite wide coverage in the media the opera failed to establish itself in the repertoire until a new production in 1966 revealed it to be a powerful and stageworthy work In recent years it has attracted an increasing amount of scholarly attention This volume offers essays by ROBERT HEWISON PHILIP REED ANTONIA MALLOY DONALD MITCHELL and PETER EVANS which explore the opera's cultural background the early stages of its creative evolution the first critical responses and various aspects of the work itself these are supplemented by a

Claude Debussy's Paris was factionalized, politicized and litigious. It was against this background of ferment and change which characterized French society and music from the Franco-Prussian War to World War I that Debussy rethought music. This book captures the complexity of the composer's restless personal and artistic identity within the new picture emerging of the musical, social and political world of fin de siècle Paris. Debussy's setting did not simply mold his style. Rather, it challenged him to define a style and then to revamp it again and again as he situated himself simultaneously via the present and the past. These essays trace Debussy's perpetual reinvention, both social and creative, from his earliest to his last works. They explore tensions and contradictions in his best-known compositions and examine lesser-known pieces that reveal new aspects of Debussy's creative appropriation from poetry, painting and non-Western music. The contributors reveal the extent to which Debussy's personal and professional lives were intertwined and sometimes in conflict. Belonging to no one group or class but crossing many, Debussy abjured the orthodox. A maverick who reviled all convention and searched for a music that authentically reflected experience, Debussy balked at entering any situation: salons, musical societies or factions that would categorize and thus distort him. Because of this, music lovers still argue over the degree to which Debussy's music is Impressionist, symbolist or even French. Aptly, the volume's editor reads Debussy's last works as a dialogue with himself that reflects his inherently pluralistic, paradoxical, negotiated and ever-changing identity. William Austin's description of Debussy as one of the most original and adventurous musicians who ever lived is often repeated. This book illustrates how right Austin was and shows why Debussy's unclassifiable art continues to fascinate and perplex his historians even as it entralls new listeners. The contributors are Leon Botstein, Christophe Charle, John Clevenger, Jane F. Fulcher, David Grayson, Brian Hart, Gail Hilson, Woldu and Marie Rolf. *List of Orchestral Scores in the Library of Congress* Library of Congress. Music Division, 1912
