The Feminist Companion To Literature In English

Helen Ostovich, Elizabeth Sauer

The Feminist Companion To Literature In English:

The Feminist Companion to Literature in English Virginia Blain, Patricia Clements, Isobel Grundy, 1990 The first international guide to women writers in English featuring both well known and obscure women writers from the British Isles and North America as well as writers from the Caribbean the South Pacific Australia Asia and Africa It includes not only poets dramatists and novelists but also diarists translators and spiritual autobiographers Most entries are biographical but there are numerous topic entries as well This book is the fruit of research by three editors and fifty specialist consultants

The Feminist Companion to Literature in English Virginia Blain, Isobel Grundy, 1990 An international guide to women writers in English featuring both well known and obscure women writers from the British Isles and North America as well as writers from the Caribbean the South Pacific Australia Asia and Africa It includes not only poets dramatists and novelists but also diarists translators and spiritual autobiographers Most entries are biographical but there are numerous topic entries as well *A Feminist Companion to Shakespeare* Dymphna Callaghan, 2016-03-15 The question is not whether Shakespeare studies needs feminism but whether feminism needs Shakespeare This is the explicitly political approach taken in the dynamic and newly updated edition of *A Feminist Companion to Shakespeare* Provides the definitive feminist statement on Shakespeare for the 21st century Updates address some of the newest theatrical and creative engagements with Shakespeare offering fresh insights into Shakespeare's plays and poems and gender dynamics in early modern England Contributors come from across the feminist generations and from various stages in their careers to address what is new in the field in terms of historical and textual discovery Explores issues vital to feminist inquiry including race sexuality the body queer politics social economies religion and capitalism In addition to highlighting changes it draws attention to the strong continuities of scholarship in this field over the course of the history of feminist criticism of Shakespeare The previous edition was a recipient of a Choice Outstanding Academic Title award this second edition maintains its coverage and range and brings the scholarship right up to the present day **Women Writers in the Romantic Age** John Claiborne

Isbell, 2025-04-17 This groundbreaking book offers a comprehensive review of six hundred and fifty women writers from over fifty national traditions spanning Europe and the Americas during the transformative years of 1776 to 1848 Framed by revolutionary upheavals the book explores how women writers shaped and reflected Romanticism's global currents It fills a critical scholarly gap connecting disparate traditions and uncovering voices often overlooked in male dominated literary histories Through concise entries the book names every woman writer identified in its vast research from celebrated figures like Phillis Wheatley to lesser known authors whose manuscripts lay buried in archives Each entry provides essential biographical details while select excerpts in seventeen languages bring these voices to life revealing how women navigated the era's revolutionary ideals and patriarchal barriers Structured democratically the volume treats all writers equally whether anonymous pseudonymous or celebrated in their time It highlights their diverse experiences poets and novelists

abolitionists and suffragists mothers and mill workers From memoirs to political tracts their works testify to the rich tapestry of women's contributions to Romanticism By illuminating these stories this book challenges national silos offering a panoramic view of Romanticism as a truly transnational female inclusive phenomenon It represents a go to resource for students and interested readers while setting the ground for future scholars to expand this vital field of study **Living by the Pen** Cheryl Turner,2002-09-11 *Living by the Pen* traces the pattern of the development of women's fiction from 1696 to 1796 and offers an interpretation of its distinctive features It focuses upon the writers rather than their works and identifies professional novelists Through examination of the extra literary context and particularly the publishing market the book asks why and how women earned a living by the pen Cheryl Turner has researched and lectured widely in the field of eighteenth century women's writing Reading Early Modern Women Helen Ostovich,Elizabeth Sauer,2004-08-02 Much has been written about women of the English Renaissance but few examples of women's writing from that era have been readily available until now This remarkable anthology assembles for the first time 144 primary texts and documents written by women between 1550 and 1700 and reveals an unprecedented view of the intellectual and literary lives of women in early modern England The writings range from poetry to philosophical treatises addressing a wide array of subjects including law gender education motherhood medicine religion life writing and the arts Each selection is paired with a beautifully reproduced facsimile of the text's original source manuscript allowing a glimpse into the literary past that will lead the reader to truly appreciate the care and craft with which these women writers prepared their texts This essential anthology is a captivating guide to the legacy of early modern women's literature and its authors that must not be overlooked *The Oxford Handbook of British Poetry, 1660-1800* Jack Lynch,2016-11-10 In the most comprehensive and up to date overview of the poetry published in Britain between the Restoration and the end of the eighteenth century forty four authorities from six countries survey the poetry of the age in all its richness and diversity serious and satirical public and private by men and women nobles and peasants whether published in deluxe editions or sung on the streets The contributors discuss poems in social contexts poetic identities poetic subjects poetic form poetic genres poetic devices and criticism Even experts in eighteenth century poetry will see familiar poems from new angles and all readers will encounter poems they've never read before The book is not a chronologically organized literary history nor an encyclopaedia nor a collection of thematically related essays rather it is an attempt to provide a systematic overview of these poetic works and to restore it to a position of centrality in modern criticism *The Oxford Handbook of Samuel Johnson* Jack Lynch,2022-09-08 No major author worked in more genres than Samuel Johnson essays poetry fiction criticism biography scholarly editing lexicography translation sermons journalism His works are more extensive than those of any other canonical English writer and no earlier writer's life was documented as thoroughly by contemporaries Because it's so difficult to know him thoroughly people have made do with surrogates and simplifications But Johnson was much more complicated than the popular image of Dr Johnson suggests

socially conservative but also one of the most radical abolitionists of his age a firm believer in social hierarchy but an outspoken supporter of women intellectuals an uncompromising Christian moralist but also a penetrating critic of family structures Labels fit him poorly In The Oxford Handbook of Samuel Johnson an international team of thirty six scholars offers the most comprehensive examination ever attempted of one of the most complex figures in English literature The book s first section examines Johnson s life and the texts of his works the second organized by genre explores all his major works and many of his minor ones the third organized by topic covers the subjects that were most important to him as a writer as a thinker and as a moralist Samuel Johnson Freya Johnston, Lynda Mugglestone, 2012-11-15 This text offers wide ranging coverage of Samuel Johnson s life work and reception across 15 thematically cohesive chapters Taking as its point of departure William Hazlitt s famous comparison between Johnson s prose style and a pendulum this volume will contest and rebalance the metaphor of the pendulum The Women of Grub Street Paula McDowell, 1998 The period 1678 1730 was a decisive one not only in Western political history but also in the history of the British press Changing conditions for political expression and an expanding book trade enabled unprecedented opportunities for political activity The Women of Grub Street argues that women already at work in the London book trade were among the first to seize those new opportunities for public political expression Synthesizing areas of scholarly inquiry previously regarded as separate and offering a new model for the study of the literary marketplace The Women of Grub Street examines not only women writers but also printers booksellers ballad singers hawkers and other producers and distributors of printed texts Original both in its sources and in the claims it makes for the nature extent and complexities of women s participation in print culture and public politics it provides a wealth of new information about middling and lower class women s political and literary lives and shows that these women were not merely the passive distributors of other people s political ideas The central argument of the book is that women of the widest possible variety of socioeconomic backgrounds and religious political allegiances in fact played so prominent a role in the production and transmission of political ideas through print as to belie simultaneous powerful claims that women had no place in public life R The first full length study to suggest the degree of involvement of women in the entire process of print creation at this important moment The Women of Grub Street supports a number of important revisionary arguments with a broad range of literary and archival evidence It will be of interest to readers of literature social and publishing history women s studies and feminism and the history of democracy and public discourse
