The Fisher Boy Alonzo Tripp, 1858 **Fiction, 1876-1983: Titles** R.R. Bowker Company. Department of Bibliography, R.R. Bowker Company. Publications Systems Department, 1983 **The American catalogue of books (original and reprints), published in the United States** James Kelly, 1871 **Books in Series**, 1985 Vols for 1980 issued in three parts Series Authors and Titles *Girls' Series Fiction and American Popular Culture* LuElla D'Amico, 2016-03-01

Girls Series Fiction and American Popular Culture examines the ways in which young female heroines in American series fiction have undergone dramatic changes in the past 150 years changes which have both reflected and modeled standards of behavior for America's tweens and teen girls Though series books are often derided for lacking in imagination and literary potency that the majority of American girls have been exposed to girls series in some form whether through books television or other media suggests that this genre needs to be studied further and that the development of the heroines that girls read about have created an impact that is worthy of a fresh critical lens Thus this collection explores how series books have influenced and shaped popular American culture and in doing so girls everyday experiences from the mid nineteenth century until now The collection interrogates the cultural work that is performed through the series genre contemplating the messages these books relay about subjects including race class gender education family romance and friendship and it examines the trajectory of girl fiction within such contexts as material culture geopolitics socioeconomics and feminism

engage deeply with Hawthorne's timeless explorations leaving an indelible impression that resonates across generations

The Encyclopædia Britannica, 1893 **The Culture Concept** Michael A. Elliott, 2002 Culture is a term we commonly use to explain the differences in our ways of living In this book Michael A Elliott returns to the moment this usage was first articulated tracing the concept of culture to the writings folktales dialect literature local color sketches and ethnographies that provided its intellectual underpinnings in turn of the century America The Culture Concept explains how this now familiar definition of culture emerged during the late nineteenth century through the intersection of two separate endeavors that shared a commitment to recording group based difference American literary realism and scientific ethnography Elliott looks at early works of cultural studies as diverse as the conjure tales of Charles Chesnutt the Ghost Dance ethnography of James Mooney and the prose narrative of the Omaha anthropologist turned author Francis La Flesche His reading of these works which struggle to find appropriate theoretical and textual tools for articulating a less chauvinistic understanding of human difference is at once a recovery of a lost connection between American literary realism and ethnography and a productive inquiry into the usefulness of the culture concept as a critical tool in our time and times to come
